

Direct-to-Patient Pharmacy Services

Custom pharmacy solutions that connect your treatments with your patients.

At the center of every clinical trial or free goods program is a patient awaiting treatment. We provide scalable, custom direct-to-patient pharmacy services that ensure patients receive their medication safely and on time. Our proven infrastructure, knowledge of processes, and dedicated, licensed support staff enable you to focus on furthering your discoveries and helping more patients.

Get support for your Free Goods Program

Let our pharmacy staff ship new products to high volume prescribers before your commercial launch date and receive support for other promotional programs. We provide efficient distribution as well as inventory accountability, giving you peace of mind. Our pharmacy can provide support for a variety of activities:

- Patient Assistance and Compassionate Needs Programs
- Early Access Programs
- Promotional Programs
- Patient Support and Retention Programs
- Post Market (Phase IV) Trials

Support for your Clinical Trial

Benefit from tighter control and convenience in managing high value or limited supply agents with our pharmacy team. By distributing agents and clinical supplies direct-to-patient or study sites as needed, we help you reduce waste, provide full inventory accountability, and minimize storage space needed at clinical sites.

Contact us to find out how we can support you with:

- Inventory management
- Study site accountability
- Biopharmaceutical and small molecule clinical agent distribution
- Recall/return destruction services

All material is shipped in nondescript shippers for enhanced patient privacy and product security.

Our experienced pharmacy staff can provide detailed enrollment, prescription, and inventory reports, as well as tracking of shipments and traceable delivery services. We can also configure pharmacy services to your specialized needs.

- e-prescribing
- Clinical updates to monitor any contraindications or interactions
- Compatible interface for interactive voice response
- Shipment initiation and tracking
- Ability to submit insurance transactions

Support for YOU

Our pharmacy is licensed in all 50 states, certified for interstate shipping, and staffed with trained, experienced, registered pharmacists and pharmacy technicians. Let us help you minimize capacity needs, increase patient compliance, and ensure inventory accountability. We can provide outbound calls to patients and physicians to offer patient consultation services, respond to physician questions, and provide intervention for original prescriptions and refills.

Look to us when you need a trusted partner to support your direct-to-patient pharmaceutical needs.
