#3 Pot	\$40	3'	\$95
#5 Pot	\$50	4'	\$145
#6 & #7 Pot	\$70	5'	\$195
		6'	\$225

Our Premium Planting Service includes: contacting JULIE to locate utilities, digging the hole to our recommended width and depth, amending the soil properly (according to soil conditions and plant type), and backfilling. Our Premium Planting Service DOES NOT include mulch or staking, although these products/services can be added at an additional charge. Our Premium Planting Service DOES NOT include the removal of existing plants. Perennials and SMALL trees or shrubs can be removed at an hourly rate of \$49/person with a minimum of 1 hour. A debris removal fee of \$44 per cubic yard will be charged if the service is required.

### **Large Tree/Shrub Replacement**

Removal of large trees and shrubs is not a service the Barn Nursery provides. Tree removal will need to be complete before the scheduled planting date. If we are planting where a tree has been within the past 5 years, the stump will need to be ground to 24" below ground level and 48" wide. Most tree removal companies will grind stumps to 18" deep, so you will need to request that they grind it further. Additionally, the wood grindings must be removed from the planting site and replaced with an equal amount of soil. If this is not possible, the new tree can be planted 8 feet from the existing stump. However, if large roots obstruct the planting, additional fees for their removal will be charged at the hourly rate of \$49/person.
