

BLOC

Behavior, Leadership & Organizational Culture Program

Impact behaviors, leadership, and safety culture across all levels of your organization.

ABOUT BLOC

The BLOC Program was developed by Dr. Lori Guasta, a recognized researcher and instructor with industry experience who specializes in organizational behavior, culture, and safety leadership.

Four major topic areas include:

Behavior Profiling

Leadership Development & Visibility

Organizational Strategies for Safety

Creating a Positive Safety Culture

Training spans 3 days but can be customized for 1- and 2-day short course versions. A combination of lectures, video, and individual- and small-group activities offer participants unique opportunities to connect with the material and directly apply lessons to their everyday experience.

Training can be customized for various audiences, including safety professionals, supervisors, mid-to-senior level managers, and corporate leaders.

SAMPLE OUTLINE
