

# Dry Hollow Elementary

TEMPORARY TRAFFIC CALMING

## Save Lives and Improve Communities

In early June, Dry Hollow Elementary will temporarily restructure their drop-off and pick-up area, cutting back on confusion and making it safer for kids and drivers.

.....

**These traffic calming measures are part of a larger Safe Routes to School (SRTS) effort. Evidence for Safe Routes to School includes:**

- Actively commuting to and from school can improve mental and physical health.
- SRTS has made it safer for students to walk or bike to or from school
- SRTS can lower healthcare and transportation costs for school districts and families
