

# KEY PERFORMANCE INDICATORS

Improve safety with real time insights

## BENEFITS FOR THE ENTIRE ORGANIZATION

### Executives

Dashboards provide a comprehensive view of safety performance across your organization.

The IndustrySafe Dashboard module allows you to view your safety performance metrics and make informed business decisions on how to improve safety at your organization.

### Safety Managers

Drill down into detailed analytics to gain valuable insights on your safety programs.

The module includes comprehensive leading and lagging safety indicators from incidents, claims, inspections, corrective actions, hazards, training, and behavior based safety.

### Supervisors and Employees

Look at your business group, team, or project to see how you are progressing in key safety metrics.

Our best of breed default indicators will save you valuable time and effort in creating measurement metrics.

# DASHBOARD MODULE FEATURES

## Consolidated Data

Look at safety indicators from different areas side by side. Compare incident rates with training compliance and percent safe.

## Personalized Views

You can create your own dashboard view; selecting the dashboard indicators important to you.

## Preset Metrics

Choose from over 75 standard metrics for incidents, inspections, actions items, training, observations, claims, and more.

## Toolbox

Create safety metrics and dashboards for your organization and add them to IndustrySafe dashboard panels.
