

INDUSTRIAL HYGIENE

Record, track, and analyze industrial hygiene activities

BENEFITS FOR THE ENTIRE ORGANIZATION

Executives

Provides a comprehensive view of industrial hygiene activity across your organization.

IndustrySafe's Industrial Hygiene Module allows users to track and analyze industrial hygiene activities including qualitative exposure assessments, area sampling, and personal monitoring.

Safety Managers

Monitor workers' exposures to potentially harmful substances or events.

With the Industrial Hygiene Module, you can easily record various types of exposure limits for agents, including time weighted average, short term exposure limit and ceiling limits. Users can also track limits for multiple agencies, including OSHA, NIOSH, and ACGIH.

Supervisors and Employees

Generate notification letters to alert supervisors and employees of applicable sampling activities.

INDUSTRIAL HYGIENE MODULE FEATURES

Track Agent Data

Build a comprehensive database with agent limits from multiple sources (NIOSH, OSHA, etc.).

Reports and Analysis

Create reports to analyze test results, trend by similar exposure groups, and much more.

Add Exposure Groups

Create exposure groups to monitor groups of workers' exposures to potentially harmful substances or events.

Notifications

Generate and print notification letters to alert employees of test results and applicable sampling activities.
