

INSPECTIONS

Record, track,
and analyze
inspection data

BENEFITS FOR THE ENTIRE ORGANIZATION

Executives

Provides a comprehensive view of inspection activity across your organization.

IndustrySafe Safety Software's Inspections module was designed to help you record and manage your organization's inspection data.

Safety Managers

Helps safety managers track compliance rates and other key inspection data.

The Inspections module's pre-built forms and checklists may be used as is, or can be customized to better suit the needs of your organization.

Supervisors and Employees

Automatically alerts supervisors and employees of upcoming or overdue inspections.

After findings have been recorded, EHS managers can use IndustrySafe's reporting tools to identify areas of the business that suffer the most deficiencies, and much more.

INSPECTIONS MODULE FEATURES

Notifications

Automatically alert employees and supervisors about upcoming or overdue inspections.

Customizable Checklists

Customize pre-built inspection checklists, or build and import your own.

Reports and Analysis

Easily build reports to learn what percent of inspections have been completed, and much more.

Inspection Dashboards

View inspection dashboard panels to visualize and track key inspection safety measures.
