

# Proven Momentum Methodology for EAM Transformation

Cohesive Solutions has an exceptional track record of achieving desired outcomes for clients implementing Maximo in asset and process centric industries. Our delivery model is steeped in industry expertise, Maximo product skills, IoT, assets and operational processes, and seasoned leadership.

Cohesive's MomentumMethodology is a structured approach to planning and executing transformational Maximo implementations and upgrades. Momentum places great emphasis on deploying industry best practices to deliver the greatest value and return on your investment.

## MomentumMethodology™ Bridging Business with Technology

## IBM Maximo Implementation Services:

### Project Management

Project Management is critical to success and our seasoned PMO ensures that your project goals are achieved on time and on budget.

### Change Management and Training

Cohesive's Change Management services offer fit-for-purpose programs that enable organizations to achieve and sustain the transformation goals they seek.

### Consulting

Cohesive's industry subject matter experts offer decades of Maximo EAM experience gained from early careers working in the industries we serve.

### Infrastructure and Architecture

Cohesive offers infrastructure design and provisioning services for customers looking to deploy robust, highly scalable, and fault tolerant virtualized infrastructures for Maximo.

### Integration with External Systems

We offer extensive experience using the Maximo Integration Framework to integrate Maximo with SAP, OracleEBS, PeopleSoft, PowerPlan, ESRI, Documentum, OpenText, OSI Pi, and others.

### Data Conversion

Our approach to data conversion applies templates, ETL tools, and the Maximo Integration Framework to ensure a rapid high quality migration of the customer's data.

### Reporting and Business Intelligence

Cohesive report developers are skilled in tools such as BIRT, OBIEE, Business Objects, and Cognos.

### Mobile Solutions

Cohesive is experienced with complex mobile deployments for large organizations where we implement solutions from IBM, DataSplice, and ESRI.

## Specialized Implementation Services:

### Maximo Spatial Asset Management

As a leading Maximo Spatial integrator Cohesive Solutions enables customers using products from ESRI and Schneider to deploy solutions that provide visual spatial capabilities for asset management used in the office and in the field.

### Industry Solutions for Maximo

Cohesive industry subject matter experts bring experience from early careers working in the industries we serve. This affords Cohesive insight and best practices that have been designed and applied to the Maximo Industry Solutions for:

- Oil & Gas
- Utilities
- Nuclear
- Transportation
- Life Sciences

Cohesive Solutions is a leading enterprise asset management consultant, certified Premier level IBM Business Partner and systems integrator.
