

Welcome to Cohesive Solutions

What We Do

We offer solutions that enable organizations to manage and optimize their asset, work, and supply chain management programs.

Cohesive Solutions resells and implements Maximo Asset Management, an IBM Watson IoT solution that enables organizations to identify, track, and manage their physical assets using industry-leading practices for asset management.

Propel Performance Management, a Cohesive developed software, enables organizations to optimize and sustain peak performance of their asset management programs by monitoring performance and managing continuous improvement initiatives.

Services We Provide:

- Business Process Consulting
- Maximo Consulting
- GIS, Maximo Spatial, ESRI ArcGIS, Schnieder ArcFM
- Maximo Upgrades
- Project Management
- Maximo-As-A-Service

Industries We Serve:

- Oil & Gas
- Utilities
- Manufacturing
- Aerospace & Defense
- Public Sector
- Facility Management

Our Culture

Here at Cohesive Solutions we offer an accepting environment where each member of our team is encouraged to achieve success both individually and professionally.

We encourage our employees to exercise their strengths and talents by providing opportunities to experience working in different facets of the business, which includes consulting, Maximo configuration, business process analysis, and software development. We believe in creating a work experience that promotes productivity while invoking a sense of accomplishment.

The Cohesive community is made up of our **clients** who recognize the dedication we bring them, the **partners** who share a common goal of achieving excellence, and our team of exceptional **employees** who tie this all together. This makes Cohesive a place where people want to be.

We Want You!

Cohesive Solutions is recruiting talented individuals intent on developing and strengthening their skills and knowledge in consulting, Maximo configuration, business process analysis, and software development. We want to help you flourish and succeed at our company.

Available Opportunities

Technical Consultant Associate

Cohesive is looking to hire co-op students and recent graduates for this entry-level position that will offer the opportunity to learn the technical implementation methods and processes for Enterprise Asset Management as applied to a variety of industries for purposes of optimizing production equipment reliability and services to their customers. The position will also afford the consultant the opportunity to learn and work with IBM Maximo; a contemporary, web-based, best of breed Enterprise Asset Management system. In this role, the consultant will learn and participate in Maximo implementation projects and learn to apply standardized software life cycle development methodologies to projects. The consultant will work closely with senior consultants and peers by participating in all phases of the project life cycle.

Per Kennesaw State University, the alternating co-op position requires the student to commit to work with the same employer in a major related position for three semesters over a five semester period, alternating between full-time work and full-time academic coursework on an every other semester basis.

You can apply for this opportunity through [KSU's Handshake portal](#).
