#### - SIMPLE

All of the benefits of the classic control with updated icons, colors & graphics

- Available in 7 languages
  - English
  - Spanish
  - French
  - German
  - Dutch
  - Norwegian
  - Portuguese

#### - DELUXE

- Programmable recipes with unlimited cook stages - allowing customers to execute all cooking requirements for their business
- Categorize and filter recipes for seamless identification and execution
- Notifications guide the cooking process
- Addition of unlimited instruction stages that can be added to each recipe - ensuring that SOP are followed
- Chamber lights and door handle flash when an action is required
- Chamber lights and door handle flash when cooking is complete to cut through noise of a busy kitchen or restaurant
- When door is opened and closed the chamber light continues to flash reminding employees to complete the action
- Ability to add images to recipes - so employees can see what the end product should look like when complete
- Ensure consistency by adding additional photos to recipes at each stage of cooking
- Displays service and cook data on screen
- Two screen modes:
  - Chamber Cookbook – Recipes only show if their cooking temperatures fall within 50° F [10° C] of current chamber temperature
  - Master Cookbook – The full recipe list
- Available in multiple languages
  - Russian
  - Chinese
  - English
  - Spanish
  - French
  - German
- Home screen display options to allow you to set the desired home screen for your operation
- Recipe upload / download via USB port

#### - DELUXE WITH CHEFLINC CONNECTION

All of the benefits of the deluxe control, plus:

- Wireless or Ethernet connectivity
- Ability to download or upload recipes in real time — allowing customers to create recipes on dashboard and push to the ovens from any location
- Ability to upload recipes to single oven, a group of ovens in a specific territory or all ovens
- Oven monitoring
  - Door open/closed status
  - Chambers in use
  - Detailed cooking reports
  - Service details and diagnostics
