

NEW LIGHTWEIGHT
GALA

Gala is the ultimate accoutrement for high-end restaurants, other white-tablecloth environments, and all catering and banquet operations. Elegant and refined, Gala is ultra lightweight for maximum ease of use, durable for maximum wear life, and made in the USA—a claim no other commercial dinnerware provider can offer. Gala can be custom decorated, but its stunning bright white also sets the table with unmistakable flair.

The Homer Laughlin China Co. 

GALA'S SLEEK DESIGN AND POPULAR AMERIWHITE® BODY PROVIDE A STUNNING BACKDROP FOR YOUR CELEBRATION

Gala brings a lot to the table, and yet it is the lightest weight dinnerware we've ever made.

How light? The Gala 10-3/8" plate comes in at a slight 23.9 ounces—almost 8.1 ounces lighter than comparable banquet plates on the market! It's even 3.6 ounces lighter than the average weight of the next seven competitors.

Gala is not just the lightest choice—it's also made in the USA and covered by Homer Laughlin's famous lifetime limited warranty against chipping under normal usage conditions.

WIDE RIM

MID RIM

Two plate styles are available. **Wide Rim** frames food and maximizes the appearance of portion sizes. **Mid Rim** offers up to 50% more plating space.
