

trays bien!

THE REAL SKINNY ON TRAYS AND PLATTERS.

On the narrow bar top, diner counter, two-top, or long table—trays and narrow platters fit everything, and they're an ideal alternative anywhere a large round dinner plate can't go. Present perfect entrées, salads, desserts, and coffee service on space-saving trays from our extensive Homer Laughlin and Hall China dinnerware lines—or let our tabletop experts help you design your own. Trays and platters become your signature serving ware, and that signature is your creative license.

As seen on the cover and here, Hall China's popular Bright White glaze now graces seven new ceramic trays, each distinctive in the minimalism of its design, creating an edgeless stage for plating that pops. The Bright White glaze creates a classic backdrop to set off your tray presentations.

The “shareables” movement—appetizers served on trays for the whole table to share—has set the stage for a new way to serve just about everything else. When you specialize the presentation of your signature entrées, salads, sandwich combos, and desserts, you make the modest memorable. Soup on a tray? Sure. Put a beautiful bowl in the middle and surround it with a crisp salad. How about a long, skinny omelet? And roasted asparagus spears are a natural. How versatile can you get? There’s really no end to the unique plating options.

For casual eateries, Studio trays from Hall China lend the artisanal look and feel of handcrafted pottery.

Anything goes on a tray.

Restaurateurs and chefs everywhere have fallen in love with the tray as an inimitable presentation option for specials, signature dishes, and to rejuvenate their standard menu items. The plating possibilities are almost as endless as the colors, shapes, textures, and patterns available from HLC.

Hammered Copper, pictured here, is inspired by the handcrafted hammered metalware of old, reflecting light that dazzles off its textured surface. But Hall's version is crafted of easy-to-clean, cost-effective ceramic in a variety of shapes and sizes. Now trending upward, trays matter on today's tables like never before. Let our tabletop experts help you with your selection.

Hammered Copper transforms. Be it ambient light from a dimly lit bar or natural light pouring in from the windows, Hammered Copper is tantalizingly unique in every environment. The scale-like surface catches and throws back light, sure to beguile your guests.

The Hall China Company®

Hall China, the largest manufacturer of specialty tableware, offers dozens of unique tray options. If you need something specific, let us know—and we'll hand it to you on a tray.

rectangular plate

7-5/8" x 5-1/4" **16160ABWA**
Also available in: OAWHA White

When your “usual” is presented in a creative new way on a standout tray, it already looks more delicious. Identical ingredients? You bet. Same amount? Less on the tray. Check average? You increase your average order value when you step up the presentation.

Picture it profitable.

Serving on a round plate is so ho-hum. You pile it high to meet the diner’s expectations, but what of your own? Now picture your signature dish served on an eye-catching tray. Not only will it be spectacular, but you can do it with less food that looks like more. Then out comes the camera. Your plating is now an Instagram sensation.

The Homer Laughlin China Company®

HLC. As local as you can get.

The Homer Laughlin China Company. The Hall China Company. Together, they are the HLC family of companies, the largest remaining domestic tableware manufacturer in the United States. We continue to thrive because we deliver what our founders intended: Dinnerware designed to inspire moods. Because of their commitment to excellence, our companies are strongholds of their communities, putting local people to work and growing a quality pottery business—literally from the ground up—with the rich clay in the soil of the Upper Ohio River Valley.

Many of you are committed to local sourcing of the foods you serve, and that means they're fresher because they're grown nearby. We hope you see the value in sourcing your dinnerware locally, too. Local means faster shipping with no overseas transportation charges. Local means made with pride in the USA by over 1,000 dedicated American workers. And local means embracing our 150-year history of manufacturing quality, from earth to table.

genuine quality. beautiful durability. proven longevity.
