

Implementation Checklist

Here are a few key items to consider before launching your Preventive Care Program. As a practice team assign responsibility for each item and allocate timing for each stage.

					
	Action items	Practice Manager	Veterinarian	Vet Nurse	Timing
Prepare	Agree on preventive care needs				
	Define Preventive Care Profiles for each age group <small>(junior, adult, senior, geriatric)</small>				
	Write a standards of care document*				
	Establish pet owner charge				
	Set practice goal				
	Choose launch date				
	Update practice management software				
	Staff training and alignment**				
Launch preventive care					

* Refer to the ASAV Standards of Care guidelines

** Refer to the staff training tools in the IDEXX Preventive Care Pack
