

Tough, Reliable

SEWAGE TREATMENT SOLUTIONS

H₂O

COST-EFFECTIVE, SIMPLE SOLUTIONS FOR SEWAGE TREATMENT

At H2O, we offer a wide variety of offshore and marine sewage treatment systems built with the strength and flexibility to meet your needs precisely when you need them. From short-term rentals to permanent solutions, our Wastewater Division utilizes advanced technology and superior manufacturing techniques. We'll provide you with dependable, worry-free operation — our systems are so tough you can almost forget about them.

NONE OF THE RISK, ALL OF THE REWARD

All Wastewater sewage treatment systems are engineered for optimum effluent compliance, exceeding all EPA regulations, and are U.S.C.G. and IMO MEPC 159(55) Dual Certified Type II systems. From crew boats to production platforms, you can be confident that our units will help your business uphold the discharge standards put in place by regulatory agencies.

With more than 30 years of proven design behind them, our units are not only setting the bar for quality – they continuously raise it.

SEWAGE TREATMENT SYSTEMS STANDARD SIZES:

MARINE

Tank Models	Gallons	Overall Clearance Dimensions
A	34	55" x 20" x 53"
A-LowBoy	34	57" x 30" x 41"

Call H2O to have one of our sewage treatment experts properly size a system to meet your needs. Contact us today or go to our website at www.watermaker.com and use the convenient request tool to discover how our Wastewater Division experts can meet your company's marine and offshore sanitation needs.

WASTE SOLUTIONS FOR **MARINE & OFFSHORE** APPLICATIONS

Our marine sanitation devices deliver reliable, proven performance that meets or exceeds industry standards. Manufactured for decades of dependable service, our systems require little maintenance and are easily installed in any area. These self-contained units deliver a tough, reliable solution to sewage treatment for crews of 2 to 500.

H2O carries a wide variety of stock sizes available for immediate shipment and has the expertise to custom-design and manufacture a unit that fits your unique application. From the smallest crew boat to the largest oil and gas platform, we can design a marine sanitation device that will meet all of your sewage treatment needs.

Additionally, we offer a full line of complementary products, including on-site service and parts that ensure your purchase of a Wastewater system will be a great investment for years to come. These include septic-safe cleaners and enzymes to keep your unit operating at its best, as well as general-purpose and toilet bowl cleaners that won't harm the bacteria in your certified sewage treatment plant. For additional information on the products we carry, including our Formula 101, we offer a parts catalog by request.

FEATURES & BENEFITS

- **Dual-certified for operation anywhere in the world**
- **Ultra low maintenance with only one moving part**
- **Easy access covers allow hassle-free access to controls even in tight spaces**
- **Patented floating skimmer ensures optimum discharge water clarity**
- **Fully corrosion protected for decades of dependable service**
*Optional 316SS Marine Models for enhanced corrosion protection available
- **Simple disinfection system with no parts to break or clog**

BENEFITS OF WORKING WITH H2O

Factory Acceptance Testing

H2O performs factory acceptance testing on 100% of the units we build before dispatching equipment to the site. This ensures the equipment has been tested individually for leak-tight, worry-free operation before installation.

A Legacy of Quality

With over 4,000 units manufactured and installed throughout the world, H2O's Wastewater Division has been providing quality, industry-standard sanitation devices for over 30 years with cutting-edge technology and superior processes.

A Complete Solution

H2O offers a variety of products and services that readily integrate into bundles designed to provide complete, worry-free water treatment solutions. We're dedicated to offering what you need, when you need it. Our divisions include Watermaker, Wastewater, and Electrochlorination, featuring the Bluecube™, Crapzapper™, Electrochlor TC, and Electrochlor PC lines of products.
