

FRAGRANCE INJECTOR PUMP KITS

SPECIFICATION SHEET

MODEL: FRAGRANCE INJECTOR PUMP KIT FOR USE WITH **AX** STEAM GENERATOR AND ELITE CONTROL

Features

- The A220FP-2 Fragrance Injector Pump Kit delivers essence oils directly into the steam line.
- Pump kit includes one (1) 16 oz. bottle of Eucalyptus oil and a wall mounted caddy to hold the bottle.
- A thermal switch ensures that oil is delivered only while steam is being sent to the room.

Installation

- Fragrance injector pump and caddy are to be located near the steam generator with the supplied saddle valve attached to the steam line as close to the room as possible.

Item Number:

A220FP-2 Fragrance Injector Pump Kit, AX Models, 9223-224
