

## K LOGIX PROJECT ADVISORY LITE SERVICE

Make an informed and justified security product investment.

**NEED TO MAKE A PRODUCT INVESTMENT IN ONE OF THESE AREAS?**

CLOUD ACCESS  
SECURITY BROKER  
(CASB)

ENDPOINT

MULTI-FACTOR  
AUTHENTICATION  
(MFA)

SECURITY INFORMATION &  
EVENT MANAGEMENT  
(SIEM)

### HOW IT WORKS:

THROUGH A STRATEGIC WORKING  
SESSION WITH K LOGIX, WE:

1. Collaborate with your team
2. Determine and prioritize your success criteria
3. Align your requirements with our in-depth matrix
4. Show you how each product scored against your weighted domains and prioritized requirements
5. Assist with vendor demonstrations and requirements scripts

### OUR **AGNOSTIC** RESULTS HELP YOU:

1

Make a justified, impactful  
business decision around  
your key risk

2

Only test products that  
address your specific  
business requirements

3

Accelerate your time to  
value without impacting  
performance

## K logix Project Advisory Lite

Using a “lighter” Project Advisory methodology, make a security technology investment decision based on your specific business and technical requirements, without taking valuable time away from your team. Achieve this, typically in two weeks or less, by leveraging our in-depth research analyzing information security spaces and technologies.

### HOW PROJECT ADVISORY LITE WORKS

Project Advisory Lite is a fit if you have:

- Identified a need to make a technology invest in one of K logix’s previously evaluated information security spaces: Endpoint, Cloud Access Security Broker, Security Incident and Event Management, and Multi-Factor Authentication\*
- Considered purchasing technologies previously evaluated by K logix\*
- Determined your success criteria falls under K logix’s pre-defined requirements\*

Through Project Advisory Lite:

- Establish a mission for your technology investment decision
- Determine and prioritize success criteria
- Leverage previously evaluated technologies based on your specific needs

### PROJECT ADVISORY LITE RESULTS

Receive an executive-friendly PowerPoint presentation including:

- Graphs and matrices displaying how each technology scored against your weighted domains and prioritization requirements
- Shortlist of solutions and supporting details for each of your success criteria
- Next steps including vendor demonstrations with vendor scorecards and requirements scripts

#### BENEFITS

- Remediate identified key risks
- Accelerate your time to value to invest in a new technology
- Increase security efficacy

#### \*LOOKING FOR EVEN MORE HELP?

Want to evaluate other information security spaces outside of what we currently offer?  
 Want to evaluate different technology products from what we’ve previously analyzed?  
 Want success criteria outside of our pre-defined list?  
 Want full customization and detailed narrative reports?

Then our full Project Advisory service will fill those needs.
