Software For
KNOWLEDGE SUPPLY CHAINS
Innovation, IP, and Tech Transfer

THE PROBLEM
TECHNOLOGY COLLABORATION

Technology advances rapidly. Every half hour 720 patents are filed, 150 research articles are published, and 70 new start-ups are founded. For companies, finding and acquiring just one breakthrough technology can lead to revolutionary products. For researchers, licensing discoveries can fund new studies and propel science forward. Yet few organization manage technology collaborations in a systematic way.
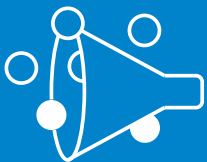

What Are Knowledge Supply Chains?

- Ideas, expertise, and intellectual property are the building blocks of innovative products.

- Companies source these knowledge assets from suppliers around the world in the same way that manufacturers source physical parts.

- Organizations on both the supply and demand sides need to optimize knowledge supply chains to improve technology collaboration.

Wellspring Software
HOW IT WORKS

INNOVATION MANAGEMENT

Wellspring software scans millions of data points and uses machine learning to stitch together comprehensive profiles of people, companies, and technology areas from around the world, identifying potential technology suppliers and innovation partners.

INTELLECTUAL PROPERTY

Wellspring connects the key aspects of intellectual property management in a single, user-friendly system. Coordinate invention disclosure workflows, manage advanced docketing tasks, and ensure annuities and maintenance fees are up to date.

TECHNOLOGY TRANSFER

Over 200 leading research organizations have increased revenue, streamlined invention disclosures, and filed more patent applications with Wellspring software. Offices large and small depend on our 30+ modules and plug-ins to manage world-class tech transfer offices.

THE RESULTS

Wellspring users evaluated **30%** more opportunities without adding any additional staff.

Wellspring users were able to reduce the time spent on IP management by **100** hours a year.

Users have licensed more than **20,000** new technologies via flintbox, Wellspring's online technology marketplace.
