

FOLLOW THESE STEPS TO FIX YOUR BED BUG PROBLEM

Step 1: Don't panic and don't start throwing away your furniture or spraying chemicals everywhere.

Step 2: Call Cooper Pest Solutions

Step 3: A representative from Cooper Pest Solutions will come to your residence for a **FREE** visual inspection and at this time we will provide you with a no-obligation estimate for our Bed Bug Service.

Once properly identified, treatment by our dedicated bed bug technicians can begin as soon as the next day.

WHY SHOULD I HIRE COOPER TO ELIMINATE BED BUGS?

- Our elimination service is guaranteed for 5 months with **NO BUGS** and **NO BITES**.
- While many other pest management companies require considerable amounts of prep work such as emptying closets, stripping beds, emptying drawers, etc. Cooper **does not** require this for most treatments.
- Our specialized bed bug technicians are the best trained in the industry. Not only does Cooper provide 8x the industry average for our technician training, our technicians are also required to pass a series of written and field exams before they are able to treat for bed bugs.
- Our bed bug treatment is highly-effective and environmentally conscious.
- We realize that bed bugs can be very unsettling, and when you choose the experts at Cooper, we will give you peace of mind knowing that the problem is solved to your satisfaction.

NO PREP. NO BUGS AND NO BITES

Since every infestation is different, we tailor our bed bug service to eliminate bed bugs by using vacuums, steam, capture devices, and chemicals. We even have eco-friendly treatment options available using heat.

And most importantly, our service requires **NO-PREP** while many of our competitors require countless hours of time-consuming prep work before treatment — like emptying drawers and removing bedding. Our Elimination Service is also **GUARANTEED for 5 Months with NO BUGS and NO BITES.**

CAN COOPER PEST SOLUTIONS PREVENT BED BUG INFESTATIONS IN THE FUTURE?

While 100% prevention of bed bugs is impossible since bed bugs can be brought into your home from anywhere, at Cooper, effective bed bug monitoring is now a reality. As part of our elimination service, we will place our discreet monitoring devices under the infested bed or sofa to monitor bed bug activity for 5 months. Our In-Home Bed Bug Monitoring Service can also be purchased separately as a stand-alone service if you are concerned about early detection of bed bugs.

If you suspect bed bugs are living in your home, call us today at 1-800-949-2667 for a **FREE** visual inspection, and we will provide you with a no-obligation estimate for our Bed Bug Service.

Bugs are **Smart**, We're **Smarter**

WE'VE DEVELOPED PRODUCTS FOR BED BUG DETECTION

Cooper Pest solutions is also the home of BedBug Central the recognized national authority on bed bugs, and the leader in bed bug education. When you hire the company that teaches the other pest management companies how to detect and treat bed bugs, using the cutting edge products we've created and developed, you are hiring the best in the business.

The latest products that we've invented with patent pending, SenSci Volcano and SenSci Activ, have transformed bed bug services throughout the US, and throughout the world.

SenSci
Activ

ATTRACT MORE BED BUGS

SenSci
Volcano

THE NEXT INNOVATION IN
BED BUG DETECTION

When SenSci Volcano is used together with SenSci Activ, the combination creates a highly-effective and easy-to-use bed bug monitor that can attract twice as many bed bugs.
