Routing & Switching Engineer – Subject Matter Expert (SME)
Job Description

This position will allow you to be a member of an elite team of engineers and play a key role in our Service Delivery Team.   The company environment is fast paced, fun and exciting. We are a growing company, with a stable book of business. If you are the type of person that likes a challenge, loves learning new technologies and working with a myriad of customers, we have the dream job for you!

We are looking for an experienced engineer who has the desire to grow their career through consulting. You will be exposed to many different projects and accounts that create opportunity for personal and technical growth.

EXPECTED SKILLS
- Be the Subject Matter Expert on network routing and switching issues by resolving escalations as well as being a mentor to other engineers on the team
- Able to quickly adapt to multiple networking environments and troubleshoot it
- Able to configure equipment, and troubleshoot complex environments is a must including routing and switching, L2 Protocols, L3 Protocols (Spanning Tree, BGP, OSPF and EIGRP, etc.)

EXPERIENCE/DUTIES REQUIRED
- Deep understanding of Cisco technologies, including: Routing, Switching & Security
- Experience troubleshooting/managing Cisco products including, but not limited to, current Cisco Router and Switch Products such as Catalyst and Nexus
- Cisco ASA with FirePower Services experience including FMC & FTD
- Experience troubleshooting/managing EIGRP/BGP/OSPF routing protocols in an enterprise network environment
- Consulting background or experience working with multiple customers is a BIG plus
- Cisco Identity Services Engine experience
- Cisco Wireless LAN Controller experience
- Cisco SD WAN experience
- Data Center experience

PREFERRED CERTIFICATIONS
- CCNP Route/Switch required or CCIE desired

WHAT'S IN IT FOR YOU?
- Work with team of high experienced engineers
- Competitive compensation, vacation and benefits
- Excellent corporate culture that is built around employee growth and skill development
- Opportunity to grow in different directions within the company while obtaining additional industry certifications

Routing & Switching Engineer – Subject Matter Expert (SME)
