

Telephony

Extend Consistent, Reliable Communication

IP telephony provides a way for you to extend highly secure, reliable, and consistent communications services to all your employees. Whether they are in main campus locations, at branch offices, working remotely, or are mobile. IP telephony transmits voice communications over the network using open-standards-based Internet Protocol.

On Premise Telephony

For customers who want a highly customizable solution, or are governed by security and privacy guidelines, an on-premise solution may be the way to go.

- *Reliability*
- *Flexibility of customization*
- *Interoperability and standards support*
- *Scalability for up to 40,000 users, extensible to 80,000 users*

Cloud Telephony

Your business phone system can now make HD voice and video calls in the cloud. You can answer and place phone calls anywhere.

- *Streamlined installation*
- *Management simplicity*
- *Ease of use*
- *Secure platform*
- *Quickly deploy and use the system with minimal configuration*

Endpoints
