

Search for Facility (M)SDSs

You can search for all active chemicals associated to a location using the steps below. If your website does not appear to match the screen shots provided below, please contact customerservice@safetec.net to have your configuration adjusted.

1. On the Main Menu, click **SDS Search**.

2. Select for the *Facility* and *Sub Location* you wish to locate documents for. There are two methods to do this:
 - a. Option 1: Use the drop down menus to make your selection.

Location Information

Search

Facility ▼

Sub Location 1 ▼

Sub Location 2 ▼

- b. Option 2: Type in the location you are trying to find and click the magnifying glass to the right. SafeTec will then search your facilities to find possible matches, which you then click the **Use** button to the left of the desired location.

Location Information

Search 

 Hide

Use	Facility	Sub Location 1	Sub Location 2
Use	Facility A	Room 3	
Use	Facility B	Room 3	

Facility

Sub Location 1

Sub Location 2

3. Click **Search**.

4. The results will display all the (M)SDSs for chemicals being used at just that facility or location.
