

Archive a SDS

There are two methods of archiving a SDSs in the SafeTec system:

1. Archiving at the SDS level will archive the SDS for the entire company. This indicates that this specific document is no longer in use for the company. Please note that there may be other alternative documents for that chemical that are still active, such as duplicates or newer revisions.
2. Archiving at the facility level will archive the SDSs for only one facility. This method for archiving should be used when a SDS has multiple facilities associated to it. By archiving at the facility level, individual facilities can indicate they are no longer using that chemical, while other facilities can indicate they are still using that chemical and need that SDS.

This document will explain how to do both of these methods.

[FURTHER INFORMATION ABOUT ARCHIVING AT THE FACILITY LEVEL](#)

Archiving at the SDS Level

1. On the Admin Main Menu, click the **MSDS Search** button.

MSDS Search

2. Search for the SDS that needs to be archived.

Product Name	<input type="text" value="acetone"/>
Manufacturer	<input type="text"/>
MSDS Number	<input type="text"/>

3. Click on the SDS that needs to be archived. This will archive the entire SDS record at all facilities.

<input type="checkbox"/>		MSDS Product Name ↑ 1	Manufacturer	Revision Date	MSDS Number
<input type="checkbox"/>		Acetone	VWR International	10/24/2012	MSDS-000588
<input type="checkbox"/>		Acetone	Ashland (Valvoline)	10/8/2013	MSDS-001568

4. Click the *Active / Archived Status* drop down menu and change it to *Archived*.

 [View MSDS](#)  [Save](#)

Product Name	Acetone
Manufacturer	VWR International
Revision Date	10/24/2012
MSDS Number	MSDS-000588
Common Names	
Active / Archived Status *	Active <input type="checkbox"/> 

5. Click **Save** to update the SDS record.

Archiving at the Facility Level

1. On the Admin Main Menu, click the **MSDS Search** button.

2. Search for the SDS that needs to be archived.

Product Name	acetone
Manufacturer	
MSDS Number	

3. Click on the SDS that needs to be archived.

MSDS	Product Name ↑ 1	Manufacturer	Revision Date	MSDS Number
<input type="checkbox"/>	 Acetone	VWR International	10/24/2012	MSDS-000588
<input type="checkbox"/>	 Acetone	Ashland (Valvoline)	10/8/2013	MSDS-001568

4. In the SDS Facilities section, click **Edit**.

MSDS Facilities				
Facility	Sub Location 1	Sub Location 2	Archived	Approval Type
Facility A			<input type="checkbox"/>	
Facility A	Room 1		<input type="checkbox"/>	
Facility B	Room 2	Storage Shelf	<input type="checkbox"/>	
Facility D			<input type="checkbox"/>	

 [Export to Excel](#)  [Edit](#)

- Click the **Edit** link next to the facility that needs to be archived.

Further Information about Archiving at the Facility Level

Please note that archiving a SDS at the SDS level does not automatically archive the SDS at the facility. If the records was to become active again, all the original facility settings would still be in place as far as who has the document active, and who has the document archived at their facility.

If you have a large quantity of documents that you need to archive at the facility level, consider reading about the [Basket Feature](#) in our help files. This tool allows you to flag many records and process them all at once, including archiving at locations.
