

Search for Products by Ingredient

1. On the Admin Main Menu, click **MSDS Search**.

2. There are two methods of doing a search from here. Both examples will be searching for *acetone*.

Method 1: Enter the number for the ingredient in the *Ingredient CAS Number* field. SafeTec recommends this method as it returns the best results.

Product Name

Manufacturer

MSDS Number

Facility Division

Facility

Sub Location 1

Active / Archived Status

Chemical Name

Ingredient CAS Number

Regulation

Method 2: Enter the ingredient in the *Chemical Name* field.

Product Name

Manufacturer

MSDS Number

Facility Division

Facility

Sub Location 1

Active / Archived Status

Chemical Name

Ingredient CAS Number

Regulation

3. Click the **Search** button.

4. The results will then display as a list.
