

View New SDS Revision

Identify and view new SDS revisions acquired by SafeTec by following the steps listed below.

1. When a new SDS document is mapped to your collection, a yellow banner will appear on the SDS Detail page. You have the option to either view the new PDF image by selecting the 'View New SDS Document' link or you can view the new SDS Detail page by selecting the 'Go To New SDS Detail' link.

 **OLDER REVISION:** The page you are currently viewing is an older version of another SDS. A newer revision of this SDS has been submitted and is currently being processed.

Click the link below to view the new revision of this SDS. Please note, indexing has not been completed for the new revision at this time.

 [Go To New SDS Detail](#)

2. When users access the new revision, the new revision will have a separate yellow banner on the SDS Detail page. This banner allows users to view the original SDS Detail screen by clicking the link provided in the banner.

 **NEW REVISION:** The page you are currently viewing is a newer version of another SDS and is currently being processed.

Click the link below to view the older revision of this SDS. Please note, indexing has not been completed for the new revision at this time.

 [Go To Original SDS Detail](#)

The yellow banners will disappear when the data has been captured on the new document. The old document will also be consolidated against the new version at this time, which will in turn archive the old document.
