

Custom Elevator Interiors

for Maximum Impact

ARCHITECTURAL
FOREST PRODUCTS

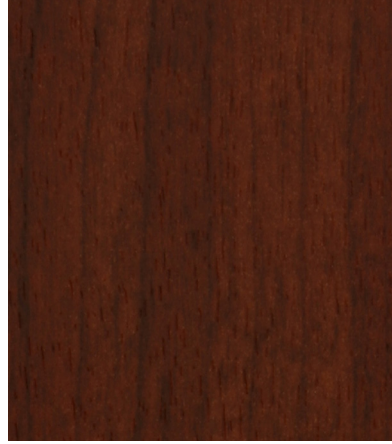

Create impressive elevator interiors with AFP, the premier source for veneered custom elevator interiors. Whether it's new projects or renovations, we help customize elevator spaces to meet both aesthetic and budget requirements. AFP manufactures a wide range of quality veneer solutions that reflect exceptional industry leading standards, all so you can create elevator cabs your customers will be proud to have throughout facilities.

AFP is the foremost supplier of veneered products to the architectural community. What's more, AFP understands the intricacies and complexities of the contract business and its demanding quality standards and schedule requirements. And that means our consistent high quality, attention to detail and lead-time reliability are second to none. Our expertise in woodworking and finishing allows us to produce paneling and other millwork pieces, as well as custom furniture, including veneered and laminated tabletops.

Durability
that lasts.

Designs
that complement.

Quality Veneer

AFP wood veneers deliver superior durability while maintaining the richness and authenticity of genuine wood. Our superior veneer process reflects meticulous expertise in slicing, assembling and matching materials. The result is a dramatic effect on the appearance of our architectural veneers.

Custom Solutions

AFP specializes in architectural projects and can help in the development, interpretation and fulfillment of cab design specifications. Our custom finish department offers custom sizing, staining and finishing of all elevator veneers, whether for ceilings or architectural walls.
