COMMERCIAL REAL ESTATE
DATA SOURCES

52 COMMERCIAL REAL ESTATE DATA SOURCES

INTRODUCTION

There are a vast number of companies that provide real estate data, and it can be difficult to sort through them or know which ones are the best. We've gathered 52 top notch companies and categorized them into the following categories: **Lease/Sales Transactions, Ownership Info, Mortgage/Financial Data, Property Data, Listings/Availabilities, Short-term/CoworkingSpace, Demographics, Geolocation, and Broker Databases.**

Some of the companies are listed in more than one category. We know this is not an exhaustive list of all the companies out there that offer CRE data, but these are some of the most popular in their respective categories.

LEASE / SALES TRANSACTIONS

Compstak | compstak.com

Compstak compiles the most relevant and up-to-date lease comparables and allows users to filter by submarket, starting and effective rent, space type, transaction size, etc. Free for brokers, appraisers and researchers, CompStak Exchange allows real estate professionals to exchange comps for credits and redeem those credits for other comps when needed. A paid subscription is available for landlords, lenders and real estate investors.

CoreLogic | corelogic.com

CoreLogic offers commercial real estate data and analytic capabilities, with an inventory of data and analytic solutions for securitized and nonsecuritized properties through the U.S. The property details available include ownership and mortgages, mortgage maturity data, listings of distressed properties, and a snapshot of specific property owner and lender's holdings.

CoStar | costar.com

For data sourcing, CoStar allows users to research sales comparables and property trends, compare competing properties, and more. Their suite of online service offerings includes information about space available for lease, comparable sales information, tenant information, information about properties for sale, Internet marketing services, analytical capabilities, information for clients' websites, and information about industry professionals and their business relationships.

Reonomy | reonomy.com

Reonomy is a commercial real estate data platform that facilitates prospecting processes for CRE professionals and uncovers ownership information for over 49M commercial properties in the U.S. Reonomy sources its proprietary data from a variety of public and exclusive private data sources.

Rescour | rescour.com

Rescour is a data aggregator and platform developed for real estate professionals to gather, organize, track, share and analyze information. Information is tailored based on the user's own portfolios and market preferences. Over 50 different types of data points are aggregated from public and private sources and organized on a map to quickly show market insights. Examples include geo-located news articles, top employers in a given market, and properties in a given market.

Real Capital Analytics | rcanalytics.com

(RCA) is a data and analytics firm whose proprietary research is focused on the investment market for commercial real estate. RCA can be used to identify the most active originators, lenders, and brokers by geography and property type, access data beyond securitized loans, and evaluate market position and understand the competitive landscape in each market.

OWNERSHIP INFO

CoStar | costar.com

For data sourcing, CoStar allows users to research sales comparables and property trends, compare competing properties, and more. Their suite of online service offerings includes information about space available for lease, comparable sales information, tenant information, information about properties for sale, Internet marketing services, analytical capabilities, information for clients' websites, and information about industry professionals and their business relationships.

Digital Map Products | digmap.com/products/landvision

Digital Map Products offers a product called LandVision Commercial Real Estate, which is a mapping application for brokers and property managers. It provides the ability to quickly find properties, view relevant property information, and contact the owners, all from an intuitive mapping interface. Commercial real estate professionals can accelerate their decision making, find better investment opportunities, and more effectively manage their building maintenance tasks.

ProspectNow | prospectnow.com

ProspectNow is designed for commercial and residential real estate professionals. It's the only product that integrates phone numbers, property and owner information, LLC data, tenants, and a contact manager into one system filtered by predictive analytics. You don't have to search through multiple systems to fill in all the information you need on a property. Therefore, you can contact more owners in less time, resulting in more deals.

Reonomy | reonomy.com

Reonomy is a commercial real estate data platform that facilitates prospecting processes for CRE professionals and uncovers ownership information for over 49M commercial properties in the U.S. Reonomy sources its proprietary data from a variety of public and exclusive private data sources.

CoreLogic | corelogic.com

CoreLogic offers commercial real estate data and analytic capabilities, with an inventory of data and analytic solutions for securitized and nonsecuritized properties through the U.S. The property details available include ownership and mortgages, mortgage maturity data, listings of distressed properties, and a snapshot of specific property owner and lender's holdings.

Black Knight | blackknightinc.com

Black Knight's property data solutions draw from their reliable, comprehensive database, featuring information on more than 99.9 percent of the U.S. population. Real Estate professionals rely on their property data solutions for a variety of applications, including enhancing their website to compete with the large real estate portals and obtaining property reports, comparables, valuations and lead lists.

Attom Data | attomdata.com

ATTOM Data Solutions is the curator of ATTOM, a multi-sourced national property data warehouse that contains tax, deed, mortgage, foreclosure, environmental risk, natural hazard, health hazard, neighborhood characteristic and property characteristic data for over 155 million U.S. properties, delivering actionable data to clients and powering consumer websites owned by ATTOM Data Solutions: RealtyTrac.com, Homefacts.com, and HomeDisclosure.com.

MORTGAGE / FINANCIAL DATA

Actovia | actoviacmi.com

Actovia makes it easy for commercial mortgage and real estate brokers to bring in more details with an easy-to-use search engine, the most up-to-date owner and building details, and comprehensive financial information for NYC properties and a rapidly growing database of tri-State area properties.

CoreLogic | corelogic.com

CoreLogic offers commercial real estate data and analytic capabilities, with an inventory of data and analytic solutions for securitized and nonsecuritized properties through the U.S. The property details available include ownership and mortgages, mortgage maturity data, listings of distressed properties, and a snapshot of specific property owner and lender's holdings.

CrediFi | credifi.com

CrediFi is a Big Data platform serving the CRE Finance market. The company provides Loan, Property and Financial Product data, benchmarks and analytics to facilitate Deal Flow and Loan Origination, along with post-deal Asset Monitoring and Trading. Their platform is designed for financial markets that focus on commercial real estate.

Real Capital Analytics | rcanalytics.com

(RCA) is a data and analytics firm whose proprietary research is focused on the investment market for commercial real estate. RCA can be used to identify the most active originators, lenders, and brokers by geography and property type, access data beyond securitized loans, and evaluate market position and understand the competitive landscape in each market.

REIS Reports | reisreports.com

Reis Reports is a source for local market intelligence, including vacancy and rent levels, cap rates, comparable properties, and more across 5 major sectors: Apartment, Office, Retail, Industrial, Self Storage.

(RE)meter | re-meter.com

(RE)meter simplifies the complex task of quantifying risk in commercial lease underwriting by delivering a proprietary (RE)port, with detailed risk assessment. (RE)meter's original product solutions act as analytics engines for underwriting—giving landlords and asset managers the ability to foresee and mitigate risk within their portfolio. Their suite of products utilizes government-certified data to provide a streamlined lease underwriting process.

Reonomy | reonomy.com

Reonomy is a commercial real estate data platform that facilitates prospecting processes for CRE professionals and uncovers ownership information for over 49M commercial properties in the U.S. Reonomy sources its proprietary data from a variety of public and exclusive private data sources.

Trepp | trepp.com

The leading provider of information, analytics and technology to the global CMBS (commercial mortgage-backed securities), commercial real estate, and banking industries. Trepp provides primary and secondary market participants with the enterprise tools to increase their operational efficiencies, information transparency and investment performance.

PROPERTY DATA

Actovia | actoviacmi.com

Actovia makes it easy for commercial mortgage and real estate brokers to bring in more details with an easy-to-use search engine, the most up-to-date owner and building details, and comprehensive financial information for NYC properties and a rapidly growing database of tri-State area properties.

Axiometrics | axiometrics.com

Axiometrics monitors the apartment and student housing sectors, providing market intelligence to help developers, owners and investors maximize their portfolio's revenue potential. The multifamily research covers rents, concessions, occupancy with property, and submarket trends. Data is available in over 150 markets.

BuildFax | buildfax.com

BuildFax has created a national data source for property condition. Their data can be used to answer essential questions about property improvements, structural risks, and changes over time. They have over 23 billion data points on U.S. commercial and residential structure.

CoreLogic | corelogic.com

CoreLogic offers commercial real estate data and analytic capabilities, with an inventory of data and analytic solutions for securitized and nonsecuritized properties through the U.S. The property details available include ownership and mortgages, mortgage maturity data, listings of distressed properties, and a snapshot of specific property owner and lender's holdings.

First American Data Tree | datatree.com/real-estate

First American Data Tree is a national provider of property data and document images to mortgage and real estate-related businesses. They have a repository of more than 5.3 billion document images, and they deliver data, property reports, and document images to help bring clarity and insight to business decisions.

Digital Map Products | digmap.com/products/landvision

Digital Map Products offers a product called LandVision Commercial Real Estate, which is a mapping application for brokers and property managers. It provides the ability to quickly find properties, view relevant property information, and contact the owners, all from an intuitive mapping interface. Commercial real estate professionals can accelerate their decision making, find better investment opportunities, and more effectively manage their building maintenance tasks.

EDR | edrnet.com

EDR serves the property due diligence industry by providing comprehensive, accurate government records data for Phase 1 Site Assessments. Clients include all stakeholders in property due diligence including environmental professionals, lenders, appraisers, corporations, insurance companies, government agencies, and of course -real estate professionals.

Loopnet | loopnet.com

Loopnet, acquired by CoStar in 2012, provides commercial real estate listings for sale and for lease. Commercial real estate brokers, agents, buyers and tenants use the LoopNet online marketplace to search for available property listings that meet their commercial real estate criteria.

Property Shark | propertyshark.com

PropertyShark.com aggregates real estate data and listings from hundreds of public and proprietary sources into an easy-to-use yet comprehensive property research website covering the New York City market. The company strives to level the playing field by providing real estate professionals, investors and savvy home buyers with the information transparency essential to evaluate all types of real estate.

ProspectNow | prospectnow.com

ProspectNow is designed for commercial and residential real estate professionals. It's the only product that integrates phone numbers, property and owner information, LLC data, tenants, and a contact manager into one system filtered by predictive analytics. You don't have to search through multiple systems to fill in all the information you need on a property. Therefore, you can contact more owners in less time, resulting in more deals.

Reonomy | reonomy.com

Reonomy is a commercial real estate data platform that facilitates prospecting processes for CRE professionals and uncovers ownership information for over 49M commercial properties in the U.S. Reonomy sources its proprietary data from a variety of public and exclusive private data sources.

SiteCompli | sitecompli.com

SiteCompli is real estate compliance for New York City. It automatically and continuously updates and aggregates data on new violations, complaints, inspections, fines, hearings, jobs, permits and more across the various New York City agencies. It provides ongoing alerts and analysis, high impact due diligence reporting, and integrated hearing representation and violation resolution.

Yardi Matrix | yardimatrix.com

Matrix is the industry's most powerful new business development tool with the capability of the most robust research platform on the market. This technology gives access to property-level information for multifamily apartment, office, industrial and self storage properties across the U.S., allowing the user to analyze current market conditions at both the micro and macro levels.

Black Knight | blackknightinc.com

Black Knight's property data solutions draw from their reliable, comprehensive database, featuring information on more than 99.9 percent of the U.S. population. Real Estate professionals rely on their property data solutions for a variety of applications, including enhancing their website to compete with the large real estate portals and obtaining property reports, comparables, valuations and lead lists.

Attom Data | attomdata.com

ATTOM Data Solutions is the curator of ATTOM, a multi-sourced national property data warehouse that contains tax, deed, mortgage, foreclosure, environmental risk, natural hazard, health hazard, neighborhood characteristic and property characteristic data for over 155 million U.S. properties, delivering actionable data to clients and powering consumer websites owned by ATTOM Data Solutions: RealtyTrac.com, Homefacts.com, and HomeDisclosure.com.

LISTINGS
/ AVAILABILITIES

Agorafy | agorafy.com

Agorafy is an open platform for organizing and sharing real estate information in New York City. Users can search thousands of listings for free and search by neighborhood or listing type. Users also have the ability to submit and manage listings. Agorafy brings brokers and agents, property owners and managers, investors, commercial tenants, residential tenants, and residential home buyers and sellers together in order to streamline the real estate process.

Catylist | catylist.com

Catylist has a national database of commercial property for sale or lease that is aggregated from Commercial MLS systems and major brokerage firms. They also offer tools for email communications, listing syndication and reporting.

CIMLS | cimls.com

The Commercial Investment Multiple Listing Service is a free commercial real estate data resource that provides information such as commercial property listings (for sale and for lease) as well as comparable sale data in the United States. They also offer a Gold Membership with an enhanced set of services such as commercial loan finder, property finder, enhanced listing and advertising.

CityFeet.com | cityfeet.com

A commercial real estate marketplace to find commercial properties for lease or sale. Users can also enter their own listings to gain exposure to thousands of tenants, investors and commercial real estate professionals.

CoStar | costar.com

For data sourcing, CoStar allows users to research sales comparables and property trends, compare competing properties, and more. Their suite of online service offerings includes information about space available for lease, comparable sales information, tenant information, information about properties for sale, Internet marketing services, analytical capabilities, information for clients' websites, and information about industry professionals and their business relationships.

DealBoard.org | dealboard.org

Dealboard.org is an online matchmaking service that connects tenants with their ideal office space by enabling them to specify exactly what they are looking for and request bids directly from owner reps. Once the tenant expresses interest in a bid, Dealboard.org introduces the two parties and lets them do the rest. Dealboard.org receives a small referral fee paid directly by the property owner, but only if a lease is signed.

Digsy | getdigsy.com

Digsy is a platform to find office space based on specific requirements like location and space type. After answering a few short questions, options can be emailed within 24 hours. Each space is submitted by an expert that leverages their market intelligence and industry knowledge to find the best options at a lower price. Users can then pick their favorite properties and schedule a time to see them in person.

Loopnet | loopnet.com

Loopnet, acquired by CoStar in 2012, provides commercial real estate listings for sale and for lease. Commercial real estate brokers, agents, buyers and tenants use the LoopNet online marketplace to search for available property listings that meet their commercial real estate criteria.

Officespace.com | officespace.com

Tenants browse available office space, specializes in small space <2K sq. ft. The company gets paid when it can make a referral to a tenant representative broker and get a portion of the commission, and for advertisers on its website. The service is free for tenants to look, and brokers to list.

RealMassive | realmassive.com

Described as a "Zillow for commercial real estate," ReallMassive is a company that offers a platform for commercial real estate professionals to streamline their marketing, while providing critical insight into the performance of their space and buildings.

Rofo | rofo.com

Rofo offers a targeted way to search for commercial real estate space. They work with thousands of landlords, commercial real estate brokers, and property managers who represent over 1 billion square feet of commercial real estate in 3,964 cities. Rofo provides a simple and efficient portal into your local commercial real estate market, whether you're looking for a part-time office space, a new retail location, an industrial or manufacturing space, or a co-working facility.

Spacelist | spacelist.ca

A comprehensive source of office, retail, and warehouse space for lease & sale in Canada. Searching for space is free, and information includes everything from floor plans to ceiling height. The site has listings from every real estate firm in Canada and is updated daily.

SpotCRE | spotcre.com

SpotCRE.com's mission is to support the commercial brokerage community, as well as individual investors and owners of commercial real estate, by marketing and finding properties. Launched by ExremeCo. in February 2015, SpotCRE.com is a website with multiple listing options, beginning with up to two free listings and the ability to do a free search of their entire database. Listings are for sale or lease in various industries, including healthcare, hospitality, multi-family, office, retail and more.

Ten-X Commercial | ten-x.com/commercial/

Ten-X Commercial is a CRE marketplace for sellers, buyers and brokers. The platform precision-matches assets, accelerates close rates, and streamlines the transaction process with more than $50 billion in sales.

SquareFoot | squarefoot.com

Exclusively for tenants, SquareFoot allows users to browse commercial space and along with broker services to walk through the process of leasing space. Concierge services include touring the space with potential tenants, answering questions along the way, and help tenants get situated after they make their move.

BREVITAS

Brevitas | brevitas.com

Brevitas was founded as an exclusive marketplace for the acquisition and disposition of commercial real estate assets. Built for owners, principals, and brokers who are dissatisfied with traditional methods to acquire and/or sell CRE Assets. Focused on private, open, and off market listings, Brevitas is an international platform that provides security, efficiency, and exposure to qualified investors.

RealCapital Markets

Real Capital Markets (RCM) | rcm1.com

RCM is a global marketplace for buying & selling commercial real estate. With a suite of online tools, they enable buyers and sellers to connect and transact more than $2.1 trillion in commercial property online. You get deal rooms to manage it all and a qualified buyer database to help you reach CRE decision makers for every asset type in every market.

SHORT-TERM
/ COWORKING SPACE

LiquidSpace | liquidspace.com

LiquidSpace is a leading shared economy marketplace for meeting and work spaces. Whether a quiet meeting room or high-end executive office is needed, LiquidSpace makes it easy to find and reserve space. Photos and detailed descriptions are updated in real time, and users are able to book and pay for only the space they need.

Offices.net | offices.net

Offices.net showcases short-term, shared, and temporary office space available in the United States. Businesses of all sizes are able to quickly find workspace, obtain prices, and tour available buildings at no cost. Most of the buildings listed are turnkey, with manned receptions, internet, phones, and furniture available in the space.

PivotDesk | pivotdesk.com

PivotDesk connects companies with excess space to companies that need it. Flexible agreements eliminate the risk of a long-term lease, allowing entrepreneurs to offset costs so they can focus on what's most important— growing their business. Only pay for the space needed when it's needed. PivotDesk includes tools like payment processing and collaboration to support the ongoing relationship between companies sharing space.

ShareDesk | sharedesk.net

ShareDesk is an online platform enabling individuals and small teams to discover and book shared work spaces under flexible payment terms. ShareDesk also helps companies rent out, and manage their available spaces. Thousands of professionals use the platform each month to discover and book spaces.

WeWork | wework.com

WeWork leases co-working office space to startups on month-to-month agreements and includes furniture, reliable internet, conference room time, and even coffee. They have several hubs in the US and raised $355 million in their recent round of funding, proving that the "sharing economy" is on fire.

Regus | regus.com

Regus provides modern, flexible workspace to customers including some of the most successful, entrepreneurs, individuals and multi-million dollar corporations.Their network of 2,600 locations in 106 countries encompasses 43 million square feet of the world's leading locations, offering convenient, high-quality, fully serviced spaces for people to work, whether for a few minutes or a few years.

Industrious | industriousoffice.com

Industrious is a premium workplace platform, blending five-star service and stunning design to provide an unparalleled workplace experience for established professionals. Industrious members come from diverse industries including creative agencies, growing start-ups, and professional services firms in real estate, finance and legal.

DEMOGRAPHICS

CoStar | costar.com

For data sourcing, CoStar allows users to research sales comparables and property trends, compare competing properties, and more. Their suite of online service offerings includes information about space available for lease, comparable sales information, tenant information, information about properties for sale, Internet marketing services, analytical capabilities, information for clients' websites, and information about industry professionals and their business relationships.

IdealSpot | idealspot.com

Predicting success at a retail location is IdealSpot's specialty. Most businesses cannot afford the expensive real estate analysis teams that McDonald's or Starbucks have at their disposal. IdealSpot has the data and trends for thousands of locations, and their proprietary algorithm can spot potential "red flags" in addition to analyzing real-time data.

PiinPoint | piinpoint.com

PiinPoint is on a mission to help businesses find the right locations and maximize their return on investments. They have an online platform that aggregates demographic, competitive, and traffic data available to provide insights into market timing and markets on the rise, and the data is presented in easy to visualize reports.

Rescour | rescour.com

Rescour is a data aggregator and platform developed for real estate professionals to gather, organize, track, share and analyze information. Information is tailored based on the user's own portfolios and market preferences. Over 50 different types of data points are aggregated from public and private sources and organized on a map to quickly show market insights. Examples include geo-located news articles, top employers in a given market, and properties in a given market.

CRE Demographics | credemographics.com

You simply provide an address and utilizing their industry experience, CRE Demographics will process and analyze volumes of demographic data presenting you with a high calibre, presentation quality Demographic Report. Their Reports contain the most pertinent and actionable information available. We offer a low-cost, no subscription required, turn-key solution, for your site location research needs.

Digital Map Products | digmap.com/products/landvision

Digital Map Products offers a product called LandVision Commercial Real Estate, which is a mapping application for brokers and property managers. It provides the ability to quickly find properties, view relevant property information, and contact the owners, all from an intuitive mapping interface. Commercial real estate professionals can accelerate their decision making, find better investment opportunities, and more effectively manage their building maintenance tasks.

ArcGIS Business Analyst by Esri | esri.com/en-us/arcgis/products/arcgis-business-analyst/overview

Use a browser or mobile device to analyze market feasibility along with the demographics and shopping behavior of consumers. With ArcGIS Business Analyst by Esri, you can gain accurate market insights and make wise sales predictions using up-to-date, current-year estimates and a five-year projection of US demographics.

REGIS Online (SitesUSA) | sitesusa.com
