

SENTRY

REFUGE CHAMBER ENVIRONMENT MONITOR

SENTRY

REFUGE CHAMBER ENVIRONMENT MONITOR

Six Reasons You Need Sentry

- 1. Single unit operation:** Only one Sentry unit is required per refuge chamber
- 2. Designed for the mining industry:** Sentry has been designed specifically for exceptional quality refuge chamber environment monitoring, and to comply with and exceed MSHA regulations
- 3. 6 month maintenance cycle:** Battery change and sensor calibration is every 6 months
- 4. 192 hours battery life from a single battery charge:** Even at incident level temperature and humidity levels
- 5. High performance:** Sentry incorporates the latest sensor technology for high accuracy, long-life and exceptional robustness in challenging environments
- 6. Low maintenance costs:** Sentry is 83% cheaper to maintain in labour costs alone, compared to other options
