

MESSAGING & COLLABORATION

Minimize risk throughout your cloud transition – from data migration to user adoption. Cloudbakers will prepare you for success on day 1 and become your advocate for future innovation and strategy, leveraging Google.

Top Drivers for using G Suite

- Use G Suite to **collaborate & communicate effectively**
- **Save money** by eliminating traditional or legacy technology
- **Enhance security** and data protections by limiting sharing & auditing
- Archive to **reduce risk** and hassles
- Take advantage of **unlimited storage**

How will you get there & what happens after?

Milestone	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
Project Planning	Environment Confirmation, License Provisioning, Project Mgmt								
Technical Phase		Technical Setup, Configuration, Data Migration							
Change Management		Custom Branded Website, Email Campaign, End-User Trainings							
Go Live							Global Go Live, Support	Ongoing Support	

Sample Implementation Timeline

Continuous Learning as a Service

Users have a thirst for knowledge and you want the most out of your technology investment. CLaaS provides a platform to deliver relevant content which increases job satisfaction and workplace productivity.

Cloudbakers' CLaaS portal gives you access to regularly updated videos & documentation keeping you up to speed with Google's pace of innovation.
