Source: StatPro - Managed Benchmark Services

Dear Colleague:

For the whole investment management community, the challenge of managing the volume, complexity and spiralling costs of index data is an immediate priority. We are delighted to announce that **Source: StatPro** is investing in a series of 'Index Initiatives' to help you address these major challenges.

From the expansion of the **Freedom family** embracing global, multi asset coverage, to the launch of our **Enterprise Benchmark Service**, a managed data service providing market leading Index and ETF data, these initiatives are all designed to provide access to quality benchmark data for performance and risk analysis as efficiently and cost effectively as possible.

We are writing today to introduce **Source: StatPro's** new benchmark data solution:

Enterprise Benchmark Service

- **Total coverage** – EBS, takes advantage of **Source: StatPro's** extensive global coverage of over 50 leading multi-asset, index and ETF providers including; MSCI Global Equity, FTSE Russell, S&P Dow Jones, ICE BoAML, Bloomberg, JP Morgan, and Markit iBoxx. EBM supports, constituent or index level data, and delivery of custom and composite (blended) indexes.
- **Clear, simple and competitive commercials** – Subscribe only for the benchmarks you require, in the places that you need them and reduce your total cost of ownership of benchmark data.
- **Exceptional service** – **Source: StatPro** has a 25+ year pedigree of creating, aggregating and integrating data for the investment management community with consolidated and normalized data feeds configured specifically to each client's requirements. 100 investment or asset management firms already rely on Source: StatPro for benchmark data delivery.
- **Quality assured** – **Source: StatPro** applies extensive validation & QA controls across all its managed data services including its global valuation and benchmark data services. As a specialist in performance and risk analytics, StatPro's Revolution division is actively using and reliant on the resultant data services.
- **Reduce operational costs and risk** – Flexible delivery technologies and customizable formats help simplify migration and integration, closely supported by StatPro's own customer service teams, to minimize the cost and disruption of change.

If you have seen the costs and complexity of your benchmark data spiralling upwards in recent years, we would be delighted to demonstrate how **Source: StatPro's** Enterprise Benchmark Service can reverse the trend!

We will be contacting our clients over the coming weeks, but if you would like to receive more information in the meantime, please reach out to your account manager, or contact *Source: StatPro* directly at: benchmarks@statpro.com.

Kind Regards,
