

Better compliance

ACHIEVE COMPLIANCE WITH CURRENT
AND FUTURE GLOBAL INVESTMENT
PERFORMANCE STANDARDS (GIPS®)
WITH STATPRO'S WEB-BASED
COMPOSITES SOLUTION

Over 1000 global GIPS®
compliance verifications.

GIPS® standards are a globally accepted methodology for calculating and presenting investment firms' performance history, these are widely relied upon by investment firms, their clients and prospective clients for ensuring consistency of investment firm results.

BENEFITS: STATPRO COMPOSITES

- Multi-currency and multilingual
- Facilitates compliance with future and prevailing GIPS® standards
- Hosted solution, accessible via a browser, flexible, customizable, easy installation and deployment
- SSAE16 Type II, ISAE3402 and ISO27001:2013 certified data centre and info-sec process
- Highly scalable
- Composite and account reports with user-defined disclosures for easy and flexible reporting

Trusted

Global asset managers have trusted StatPro Composites to instill investor confidence in their services and drive their business growth since 1996. The product has supported well over 1000 GIPS® compliance verifications globally.

Efficient

In addition to increasing your firm's credibility by complying with GIPS®, StatPro's solution promotes greater operational cohesion. Failures in data control and operational risk are mitigated because StatPro's technology streamlines the calculation, creation and maintenance of composites. The application also enables more efficient reporting to external auditors and clients with a robust library of report templates that clients can leverage for their reporting needs.
