*"The Facilities team spent 5 months working on a project where we were coached by Vanto Group. Before working with Vanto Group, we talked about doing things for years. We knew what we should do but we either didn't dare to take action or just couldn't get started. People would think from their own agenda with no synergy as a team.*

*After working with Vanto Group, we stopped complaining, found a way forward and just did it. We are sharing ideas, and quickly get to solutions. We are now communicating effectively and we understand each other. Moral is higher and we are supporting one another. Everyone in our team has transformed their leadership."*

*"I'm very pleased to recommend the Vanto Group for the work they did with my leadership team. I asked them to expend the leadership capabilities of my team through education on achieving higher performance, to facilitate a conversation among ourselves on our key milestones for two years out, and to help us create a set of shared commitments on how we will work with each other.*

*Over the course of our engagement, they delivered on all three. we had frank and meaningful conversations about our future and our work, and the team is moving forward with a new level of energy and focus."*

*"In my 17 years of being in the company this is the very first quarter a team has created a promise and kept a promise like this. The culture has been one where teams set targets that no one expects to meet and no one is held accountable for.*

*The team can now see for the first time the possibly and the pathway to being a group of people who have what it takes to create and realize a bold future."*
