

Microsoft Dynamics AX on Azure

You run your business. We run AX.

ERP applications are always business critical. Running a complex, large-scale Microsoft Dynamics AX solution requires extensive knowledge and expertise to ensure your environment is running at peak performance.

OneNeck® IT Solutions provides end-to-end management of Microsoft Dynamics AX 2009 and 2012 on Azure. As a Microsoft Gold Certified Partner and a Microsoft Cloud Solution Provider, OneNeck will help you architect, deploy and manage your Microsoft Dynamics AX 2009 or 2012 solution powered by Azure. Our team will support your environment, 24/7, from initial design to ongoing management. And, by leveraging our 500+ monitoring templates, we can proactively manage your AX on Azure environment to ensure it's running smoothly, increasing performance and reliability.

We can help you:

- Understand the benefits of running AX 2009 or AX 2012 on Azure
- Create a migration plan
- Deploy or migrate your AX solution to Azure
- Integrate third-party specialty applications with Microsoft Dynamics AX
- Provide ongoing operational support for your AX environment on Azure
- Take advantage of hybrid capabilities by optimizing your workloads across customized hybrid solutions that span on-premises, ReliaCloud® (OneNeck's hosted private cloud) and Azure

What Makes OneNeck Different

Leveraging our exceptional, certified, world-class AX application administrators and SQL DBAs, we currently manage more than 10,000 AX users, and some of the largest environments in the U.S. We leverage our mature range of tools and processes to ensure that your Microsoft Dynamics AX environment is running at optimal performance; freeing your resources to focus on your core business objectives.

Benefits of OneNeck's Services for Dynamics AX on Azure

Leveraging OneNeck to deploy and manage your Dynamics AX environment on Azure can deliver maximum value to your AX environment. Benefits include:

- **Centers of Excellence** — Access top-level talent, latest technologies and proven processes on an as-needed basis.
- **Tailored Solutions with a Single Point of Accountability** — Tailored solutions to be flexible and address the specific functionality and performance needs of the company.

Let us help you deploy and manage your Microsoft Dynamics AX environment on Azure.
