UNLIMITED

Catalog

ABOUT US

For over 30 years, we have been the first choice of the world’s top hotels, resorts, restaurants, theme parks, spas, shopping centers, retailers, and commercial spaces. Planters Unlimited designs and manufactures products for the commercial environment, using industrial-grade materials that make them durable in high-traffic areas and all weather conditions. Our planters are offered in a wide range of traditional and modern designs, making them both stylish and long-lasting. And because they are fully customizable in style, size, shape, color, and finish, there is a planter for every project or space.

As the industry leader in commercial planters and landscape products, we are the trusted resource for landscape architects, interior designers, contractors, and other trade professionals who want beautiful, durable designs for their projects.

WHY PLANTERS UNLIMITED?

Customizable Designs*

- Unlimited planter sizes, styles, colors, finishes, and options
- Fiberglass, GFRC, fiberstone, wood, PVC, and metal planters

Durable Construction

- Planters feature reinforced interiors and smooth, glasslike finishes
- Industrial-grade materials for all-weather planters and products

Competitive Pricing

- High-quality products at competitive prices
- Custom sizes without custom prices
- Large volume discounts and quick turnaround

*For more information on how to customize our planters to fit your project needs, see the “Customization” section of this catalog on page 42, call us at 1-855-319-9478, or visit us online at www.plantersunlimited.com

COMMERCIAL FIBERGLASS PLANTERS

Fiberglass planters are made from a durable, lightweight material that can be made to look like wood, stone, and other materials. Long-lasting fiberglass planters are ideal for outdoor use, even in extreme climates like freeze/thaw conditions, as they won't crack, chip, or become otherwise damaged. Their lighter weight also makes them the perfect choice for rooftop gardens, balconies, decks, and other places where weight is a consideration.

Features & Benefits: Fully customizable | Withstands extreme weather without damage | Reinforced interior for added durability | Built from commercial-grade materials | Moisture- and rot-resistant | Lighter in weight than stone or concrete

CONTEMPORARY COLLECTIONS

MODERN

Flexible and resourceful in its design, the Modern Series is a core component of our fiberglass collection. It offers crisp, clean lines with unparalleled singular or modular applications.

CONTEMPORARY COLLECTIONS

MADERA

With the look of wood, complete with intricate knot and grain detailing, our Madera planters are actually made from all-weather fiberglass for the ultimate in durable design. Clean and streamlined, the Madera's design looks like natural wood including: walnut, mahogany, and other wood species. The Madera line is the perfect balance between the rustic beauty of wood and the longevity of fiberglass.

GFRC & FIBERSTONE PLANTERS

Achieve the look and feel of natural stone with our GFRC and fiberstone planters. Our cast stone and weathered stone planters are made from GFRC, a composite mixture of concrete and fiberglass. Our fiberstone planters are made from a mix of glass fibers, polyester resins, and natural materials that when combined with our unique tooling capabilities achieves the look of carved stone at a fraction of the weight.

These high-quality industrial materials give our planters flexural strength that allows them to handle extreme temperatures without cracking or warping. Lighter in weight and more economical than stone, our GFRC and fiberstone planters are popular for high-traffic areas like shopping malls, hotel lobbies, and public courtyards.

Features & Benefits: Looks and feels like stone or concrete | Made from industrial-grade materials | Significantly lighter than concrete or stone planters | More economical than stone or concrete planters | Won't crack or warp in extreme climates | Ideal for high-traffic areas and heavy plant loads

WEATHERED STONE

The Weathered Stone look conveys an elegance similar to stone and concrete, yet is set apart from them by displaying a texturally rough and rustic surface. Architects and designers, along with the clients they serve, are drawn to its handsome ruggedness that is both majestic and classic, exuding a heft that is undeniable. Perfect for outdoor and public displays.

CAST STONE

Our Cast Stone planters have been handcrafted by skilled artisans, providing impeccable attention to detail for a natural stone look and feel. Made from Glass Fiber Reinforced Concrete (GFRC), cast stone planters offer a lustrous combination of versatility and customization potential that is as breathtaking as it is constant.

PVC PLANTERS

Our composite planters look just like painted wood, but unlike wood they won't rot or suffer moisture damage. Made from solid-wall cellular PVC, a resilient material that is impervious to moisture and corrosion, these durable planters are especially popular for outdoor use, since they won't warp, crack, or become damaged even in extreme weather conditions. Simple yet contemporary in design, these white planters can be painted in any color to match or complement any design.

Features & Benefits: Made from commercial-grade cellular PVC | Won't absorb water; rot-proof | Clean, contemporary design | Leave white or paint any color

TRADITIONAL COLLECTIONS

THE CLASSIC TOUCH

LAGUNA | CAPE COD | MAIN STREET | FRENCH LATTICE | FLAT PANEL | CARRIAGE HOUSE | RAISED PANEL | CORONADO | VERSAILLES | LEXINGTON

WOOD PLANTERS

Our wood planters are made from cedar and redwood, as well as reclaimed oak giving them natural beauty and rustic charm. These beauties are also inherently insect-resistant, making them ideal for outdoor spaces like restaurant patios and rooftop gardens. And the size and strength of these planters make them a sturdy choice for heavier planting loads, like trees and shrubs with large root balls. Leave these lovely planters natural, or you can stain or paint them to the shade of your choice. Fiberglass liners and a clear sealant finish are also available as options for increasing planter life.

Features & Benefits: Natural, rustic wood design | Made with cedar, redwood, recycled, and reclaimed wood
Inherently insect-resistant for outdoor use | Handles heavy plant loads

STAINLESS STEEL PLANTERS

A mix of sleek, sophisticated design and sturdy construction, our stainless steel planters are made with a fiberglass core, which is then covered with a bottomless slip-over steel shell. These planters are not only stylish, but they are long-lasting even in outdoor applications with rain and snow, as they won't become damaged or rot from moisture. Available in a brushed or polished finish, these planters are the perfect complement to industrial and modern design themes.

Features & Benefits: Modern, industrial design | Fiberglass core for added durability | Made from industrial-grade materials | Ideal for indoor and outdoor applications | Won't crack, warp, or rot in extreme weather

STAINLESS STEEL PLANTER
SQUARE: P23-SS-SX

Custom sizes available.

STAINLESS STEEL BRANDED PLANTERS

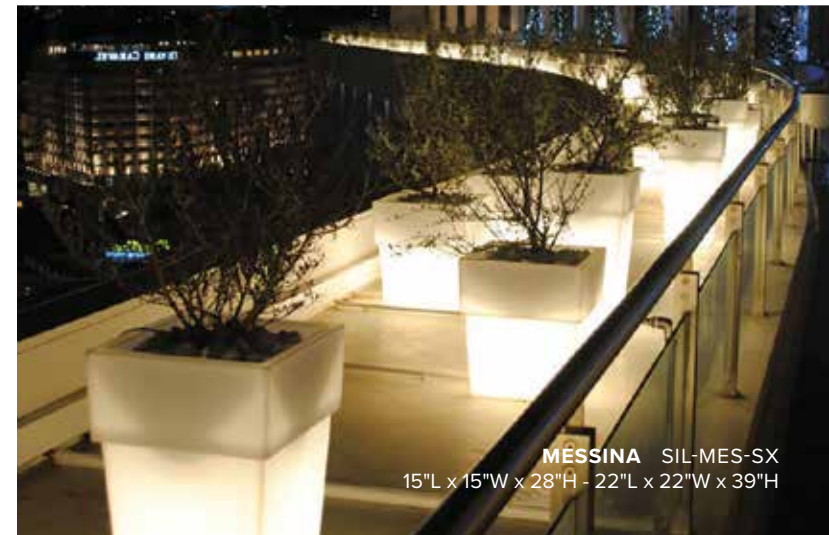

**STAINLESS STEEL SLIP-OVER
PLANTER WITH LINER**

ILLUMINATED PLANTERS

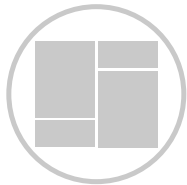

Our illuminated planters are made with commercial-grade polyethylene, a material that makes it sturdy enough to live outside in the elements, and translucent enough to cast a warm glow. Functional as planters, they are also ideal for lighting up walkways, entryways, park paths, and other areas where you wish to light a path for foot traffic. Use them to draw the eye as a design accent, create mood lighting, and add security to otherwise dimly lit areas.

Features & Benefits: Made from commercial-grade polyethylene | Unique design combines functional planter with lighting | Functional lighting for walkways, entryways, and more | Mood/accent lighting for indoor and outdoor spaces

PLANTER CUSTOMIZATION

Like our name, our custom capabilities are “unlimited.” We make custom planters at non-custom prices, so you get planters that look and function how you need them for your commercial projects—without minimum orders or outrageous prices.

Material
Choose from custom fiberglass planters or an assortment of other materials for your project: Fiberglass, GFRC, Fiberstone, Wood, PVC Composite, and Stainless Steel.

Size
Planters can be made in almost any size. For very large planter installations, units can be shipped in sections and installed together onsite.

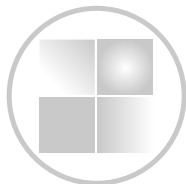

Shape
Many of our planter collections are available in different shapes, from round to rectangular. If you see a planter you like, but don't see the shape you need, we can make it!

Style
Want to tweak the style of one of our planters—or create a whole new planter style for your next project? If you can dream it, we can build it!

Color
Choose from over 25 colors for your planter. We can also color-match!

Finish
Choose one of our four industry-grade finishes for your planters: flat, semi-gloss, gloss, and sand.

ARTIFICIAL PLANTS

Order any planter pre-populated with lifelike plants and flowers from our sister company, Artificial Plants Unlimited.

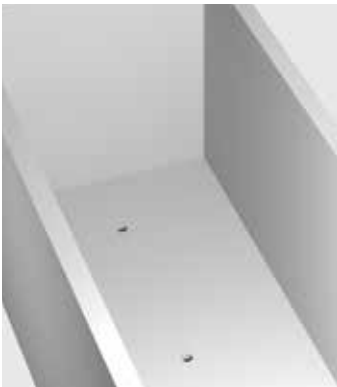

PLANTER OPTIONS

FIBERGLASS PLANTER LINER
Add an optional fiberglass liner to your existing planter in order to extend its life by protecting it from soil damage and rot with this water-resistant shell. Available with optional drainage holes.

WATER RESERVOIR
Make any planter self-watering with a water reservoir, available in rectangular and round shapes and several sizes. Use two or more reservoirs for larger planters to keep them properly and evenly hydrated.

PRE-DRILLED DRAINAGE HOLES
Order any planter with pre-drilled drainage holes to promote aerated soil and healthy plant growth.

SAUCERS
Add a matching saucer for your planter to contain excess water.

FEET
Optional planter feet can be added to any planter design, and customized in style and height.

CASTERS
Locking and non-locking casters are available, creating rolling planters that are easy to move in and out of place. These heavy-duty casters are outdoor-rated, sized to the planter, and placed in key support areas on the planter.

FORKLIFT KNOCKOUTS
Order your planter with forklift knockouts for easy installation.

FALSE BOTTOMS
A false bottom gives you several inches of planting space, providing the illusion of a larger planter but without the additional soil. False bottomed-planters can also be used to cover unsightly architectural elements (such as parking bollards).

LIGHTING OPTIONS
Incorporate lights into your planter design, including illuminated toe kicks and backlit cutouts for logos and other designs. Choose from fluorescent and LED lighting options, available in a variety of colors and with an optional timer.

TOE KICK
Add a stylish and functional toe kick to any planter; illuminated toe kicks are also an option.

CHARGING AND POWER PORTS
We can incorporate charging and power ports (including USB) into almost all of our planter designs.

LOGOS AND CUSTOM DESIGNS
Customize your planter with a company logo or original design, including cutouts and backlit options.

DESIGN CAPABILITIES

XANDER | ORBIT | NAZCA | HELIX | KAZA | JASMINE | NEO | LILY

Do you have a unique planter design you want to see come to life? If you can dream it, we can make it! Tapers, trims, cutouts, odd shapes—all are possible with our unlimited customization capabilities. Give us a call and one of our design specialists will be happy to help you with your original designs.

HANGING BASKETS

Perfect for adding color and beauty to commercial spaces, our hanging baskets are often used for city beautification projects and as natural design accents for public parks, outdoor shopping areas, and theme parks. Our traditional English Garden hanging baskets are made from industrial-grade, powder-coated steel, and our modern fiberglass hanging baskets.

Features & Benefits: Creates eye-catching displays of color | Beautifies city streets and historic districts
Mounts on walls, poles, and streetlights | Custom sizes and self-watering options available | Pre-populated with artificial plants, as an option | Natural coconut coir liner or fiberglass insert option

ENGLISH GARDEN HANGING BASKETS

An effective way to incorporate plant life into a range of commercial applications, our hanging baskets are ideal for cities, municipalities, and commercial spaces where a dramatic and bountiful display of flowers creates charm. Fiberglass liners provide an easy way to replace flowers and plants, and reservoirs help reduce watering frequency. Heavy-duty brackets ensure secure placement of hanging baskets to reduce liability.

MEGA BASKETS
24", 30", 36", 42"Dia

ENGLISH BASKETS
18"Dia - 22"Dia

FIBERGLASS HANGING BASKETS

Made from lightweight molded fiberglass, this commercial-grade hanging basket is designed for rugged outdoor use. And 24 different color and four finish options ensure that each large hanging basket makes a lovely presentation. Mount along city boulevards, mall walkways, or throughout the grounds of a resort.

COLOR / FINISH: See chart on page 46.

BASKET BRACKETS

Get years of durable beauty with commercial hanging basket brackets. Our selection of heavy-duty hanging basket brackets includes wall-mount and pole-mount options. Powder coated in a textured black finish, each of these wrought iron hanging basket brackets are suited to exterior applications.

TO ORDER WROUGHT IRON HANGING BASKET BRACKETS FOR POSTS AND POLES: Choose from the standard shapes and sizes listed online or call for a custom order. Because we are the manufacturer, any commercial hanging basket bracket is within our capabilities.

WALL MOUNT HANGING BASKET BRACKET

ALL-IN-ONE BASKETS

With seasonal fluctuations and droughts in many parts of the country, cities are moving to cost-effective beautification projects that minimize water usage yet maximize beauty. Our All-In-One Hanging Baskets, populated with artificial floral and foliage arrangements, have become the perfect eco-conscious alternative to live plants. From azalea and bougainvillea to impatiens, ferns, and ivy, artificial baskets look as real as live plants, minus the upkeep.

FIBERGLASS LINERS

Fiberglass planter liners are built to protect planters from water and soil damage with their durable, rot-resistant fiberglass shell. These durable fiberglass liners are also available with optional drainage holes to promote healthy soil and plants. Available in several shapes and sizes, we can also build a custom liner to fit the size and shape of your planter. Liners can be mounted with drainage/plumbing fittings for connection to the landscape drainage system.

Features & Benefits: Protects planters from water and soil damage | Adds years to planter life | Keeps soil drained and rot-free | Custom sizes to fit any planter or application | Self-watering options available | Watertight option for use in water features

WATER RESERVOIRS

Get your hanging baskets and planters to water themselves with our easy-to-add water reservoirs, available in several sizes and shapes to fit any container. Save time and money on maintenance costs for commercial projects, as these reservoirs will keep plants hydrated for weeks at a time! Easily add them to new or existing planters to make them instantly self-watering.

Features & Benefits: Keeps planters and baskets hydrated for days to weeks | Saves money and time on maintenance for commercial projects | Hydrates evenly, wicking water up over time | Waters at root level, while preventing root rot | Sizes and shapes to fit any planter or basket | Great for planters in hard-to-reach, hard-to-water areas

LIVING WALLS & 3D PANELS

Get instant architectural appeal indoors or out with our living walls and 3D decorative wall panels. Choose the look you want—including manicured greenery (with zero care!), copper, tree bark, concrete, and wood panels—all of which are made from commercial-grade materials that provide years of use. Create an eye-catching accent wall or revamp all the walls in your hotel, restaurant, or office.

SPACE DIVIDER

Create private spaces, direct foot traffic, or block/filter obscure unwanted views with one of our decorative space dividers. Designs include trellises pre-populated with gorgeous, lifelike artificial greenery and flowers, boxwood hedges and horsetail reeds in planters, and many more. Made from industrial-strength materials built to withstand high-traffic, all-weather environments, these space dividers can be placed indoors and out for a natural-looking and functional design accent.

PROJECT GALLERY

For over 30 years, the world's top hotels, restaurants, retailers, and landscape architects have used our products to add style and function to their spaces. Here are a few Planters Unlimited projects to show the range of our capabilities.

PLANTERS UNLIMITED SERVICE COMMITMENT

Satisfaction guaranteed is our commitment to our customers.

Through excellent customer service and care, we strive to create a stress-free estimation, ordering, manufacturing, and delivery process.

ESTIMATING

Please contact us directly for detailed estimates and for trade pricing.

ORDERING & MANUFACTURING

Phone Orders

At Planters Unlimited, everything we do is made-to-order. Our customer service representative will provide you with a detailed estimate. Once we receive a signed estimate back, we require a 50% deposit. From there, we prepare a shop drawing for your approval before manufacturing begins. The balance of the payment is due before goods ship.

Online Orders

Orders processed online are billed in full upon purchase. All online transactions on our website are handled with industry-standard SSL encryption for optimum security. For added security, credit card numbers are encrypted at all times during your transaction. For online orders with large quantities, you may be contacted by a customer representative for accurate lead time and shipping information.

SHIPPING

We make every effort to ship your items as quickly as possible. Custom orders can take anywhere from 2-6 weeks based on quantity, customization, and order volume. Smaller items are sent via UPS or FedEx, and larger items are placed on pallets and sent via freight carrier.

Canada and International Orders

Please call us to determine proper shipping and exporting costs.

RETURN POLICY AND WARRANTY

At Planters Unlimited, we ensure quality products with attention to detail. All of our planters are made-to-order, and therefore non-returnable. We guarantee you will receive them in excellent condition, and we stand behind our products with a one-year limited warranty.
