1 Qualifying minimum effective Nexosis ARR

2 Qualifying Completed Nexosis Projects

3 Nexosis right to review of marketing material and frequency that includes Nexosis' API

The partnership plan runs from Jan 1 to Dec 31 each year. Partners are immediately eligible for partnership level upgrade once all minimum requirements are met during the calendar year. Partnership status is valid through the end of the following calendar year as long as annual fee is met by Jan 31 of that year. A new partnership level will be assessed through Jan 31 if not all minimum requirements have been met. All eligible or current partners must (re)apply each year by Jan 31. Partners must have at least one developer account with a successful API call using provided sample data before approval.
