

Fauske & Associates, LLC, experts in chemical process safety, presents:

NFPA 652 – An Introduction to Dust Hazard Analysis

Date: September 22, 2016

Time: 8 am - 4:30 pm

CEU's: 0.7

Cost: \$495

Presented by: Dr. Ashok Ghose Dastidar, Ph.D., VP, Dust & Flammability Consulting & Testing Services
Zach Hachmeister, Director, Business & Services

Location: Atlanta Airport Marriott
4711 Best Road
College Park, GA 30337

This course will ensure all participants are aware of important issues associated with NFPA 652 and describe how this standard interacts with other relevant NFPA codes and guidelines. A special emphasis will be placed on explaining the requirements for a Dust Hazard Analysis (DHA) and an overview of the methodologies that can be employed to perform a DHA. The course will also include a logical approach to characterizing a powder's hazardous dust properties, as well as a description of various techniques used to control and/or avoid dust explosions in a safe and compliant manner.

Ashok G. Dastidar

Zach Hachmeister

Scheduled Agenda

- Introduction
- Overview of NFPA 652
- Fundamentals of Dust Explosions
- Introduction to DHA methodology
- Mock DHA on a Small Blending Operation

Outcomes

- Protection Options
- Daily Learning Assessment
- Questions and Answers
- Course Evaluation Instruction

After completing this introductory course, participants will acquire a basic understanding of DHA requirements and methodology. This will include a basis for identifying potential dust hazards and an understanding of how to utilize appropriate test methods to determine levels of potential hazards; as well as how to apply appropriate mitigation techniques to prevent or control combustible dust hazards.
