## **Complete Payroll to purchase and plant 25 trees in Village of Perry to commemorate 25th anniversary**

PERRY, N.Y. - Complete Payroll, a regional payroll processing firm headquartered in Perry, N.Y. has announced it will purchase and plant 25 trees within the village of Perry to commemorate the 25th anniversary of its founding.

On Friday, May 19, the company will close its offices at 11:30 a.m. and head into six different locations within the Village of Perry to plant the trees. Most of the 55 employees will be on-hand and volunteering.

“We have been working closely with the Village of Perry and its Tree Advisory Board to identify the best locations for the trees as well as which type of trees would be best for each specific location,” said Complete Payroll CEO Rick Fish.

After all 25 trees are planted, the company will be hosting a reception to commemorate the event and recognize all those who contributed. Members of Perry’s Tree Advisory Board and local elected officials are expected to be on-hand.

“Trees are the lifeblood of a village. And recently the Village has established a citizen-based Tree Advisory Board to address this need. Complete Payroll’s initiative is incredibly timely and will be extremely impactful,” said Rick Hauser, Mayor of Perry, N.Y.

Complete Payroll opened its doors in 1992 on Route 39 in Perry, N.Y. It provides payroll processing, time and labor, human resources and Affordable Care Act compliance services with additional offices in Buffalo and Rochester.
