## A Neuronline Virtual Conference

January 23–24, 2019

### MITIGATING IMPLICIT BIAS: TOOLS FOR THE NEUROSCIENTIST

From the convenience of your home or lab, join a diverse panel of experts to gain greater understanding and recognition of stereotypes that unconsciously influence how we see ourselves and others. Obtain tools to overcome implicit bias and increase diversity in your institution or workplace, as well as the neuroscience field at large.

#### ORGANIZERS:

- Ione Fine, PhD, University of Washington
- Alicia Izquierdo, PhD, University of California, Los Angeles
- Yael Niv, PhD, Princeton University

#### KEY TOPICS:

- Implicit Bias in Academia
- Creating a Good Lab Environment
- Resources for Non-Biased Recruitment and Selection
- Impact of Implicit Gender Assumptions on Research
- Successful Practices in Promoting Diversity in the Pipeline
- Negotiation

#### REGISTRATION:

Registration for this virtual conference is complimentary for Society for Neuroscience (SfN) members and \$150 for nonmembers. It includes full access to the live event and one year of on-demand access to the recording.

Registrants are encouraged to host group viewings of the conference with students and colleagues – only one registration is required.

Join SfN or renew or your membership: [SfN.org/pdc2018join](https://www.sfn.org/pdc2018join)
