

Irvine LBU

FACT SHEET

Wachter's **Irvine LBU** (Local Business Unit) has an established presence with W2 technicians and electricians throughout Southern California.

We are both a C-10 and C-7 licensed contractor in the state of California and maintain industry certifications with top-end physical security manufacturers and low voltage (i.e. CAT, UTP, Fiber Optic) infrastructure manufacturers.

And we are backed by the resources and manufacturer partnerships of a national company.

With 12 locations and a nationwide W2 workforce, Wachter's reach stretches across the U.S.

Irvine Expertise

Design Services:

- Site Assessment
- Equipment Procurement
- IT Network Engineering
- Testing and Documentation
- Lighting Audits
- Electrical Engineering

Maintenance:

- Power Monitoring
- Thermography
- Network and Structured Cabling
- On-Demand Electrical System Service
- Physical Security
- Automation and Controls

Driving Value:

Wachter provides a single source for the design, installation, and maintenance of electrical power and IT networks.

We develop integrated solutions that improve efficiency and reduce the total cost of ownership (TCO).

Low Voltage Systems:

- Physical Security / CCTV
- Access Control
- Fire and Burglar Alarm
- Structured Cabling
- Audio Visual

IT Networks:

- Wireless
- Data Center
- IP Phone Systems
- LAN / WAN
- Switch and Route
- Fiber Optics

Irvine Project Spotlight

Proctor and Gamble \$1.4 million-square-foot distribution center

- Expedited install time
- 1,200 copper cables
- Redundant fiber ring
- Security, automation, controls, networking, telecom

Orange County Transit Facilities and transportation network—six properties in five cities

- Design, configuration, installation, and managed services
- Wireless mesh network
- LAN / WAN
- Routers, switches, servers, access points, workstations, 800 mobile DVRs, 6,300 cameras

Wachter At A Glance:

Founded: 1930
Corporate Structure: Privately Held
Total Employees: 1,400
Headquarters: Lenexa, KS
Regional Offices: 12

What We Do:

We provide turnkey services including analysis, design, engineering, installation, and maintenance.

Wachter is here to keep critical systems delivering a return on your investment.

How We Do It:

Wachter values relationships.

First, we ask powerful questions to understand how technology can be used to improve processes.

Then our engineers develop a design concept to validate and refine in a real-world environment.

Finally, our field crews implement the solution – at one site or thousands of locations.

Wachter holds electrical and low voltage licenses in all 50 states.
