

DLA Dashboards and Reports

Teacher Dashboard:

Teachers can view data for classes in which they have assigned the exam for the Digital Literacy Assessment (DLA).

Launching the Dashboard

- Click on 'My Classes' in the left-hand side of your screen.
- Click on the class name where the DLA is assigned.
- Click the reports tab with the pie chart icon under the class name.
- Click 'DLA Dashboard' at the bottom of the list.

Viewing the Dashboard

- This is the main teacher landing page from which you can view your students' scores in the DLA interface.
- In the score bar, the green section represents the correct percentage and the red section represents the incorrect percentage.
- If a gray bar is visible, this indicates a student has launched but not submitted the assessment.
- The Practice Assessments do not include all standards. As such, the Practice Assessments will also show a gray bar for the standard that is not included.
- If students have not launched the assessment yet, you will see a "Come back soon" graphic.

Teacher Dashboard

The teacher dashboard gives an overview of average student scores for the selected performance by standard and overall score. You can drill down by clicking on a student.

Class: Assessments Assessment: Benchmark 5th Grade

▲ Student	Duration	Reopen	Score	ISTE-S(1...
Average	19 mins	—	91%	88%

Come back soon...

Once your students begin the assessment, come back to explore your class and student data.

Viewing Individual Students

- From the Teacher Dashboard, click on an individual student name.

- In addition to the total score and ISTE-S specific scores, you can scroll through the questions to review the student answers.

The screenshot shows the Learning.com DLA Dashboard. At the top, there are tabs for 'Teacher Dashboard' and 'Your Student'. Below this is a table with columns: Student, Duration, Reopen, Score, and ISTE-S(1) Empowered Lea... The table shows 'Your Student' with a duration of '1 mins', a 'Reopen' button, a 'Score' of '67%' (indicated by a green bar), and an 'ISTE-S(1) Empowered Lea...' score of '50%' (indicated by a red bar). Below the table, there are two sample questions:

Item 1
You and a friend wrote an algorithm for making cupcakes. This way anyone can make them. Put the steps to the algorithm in the correct order.

- Gather the recipe's ingredients.
- Mix the ingredients in a bowl.
- Pour the batter into the baking tray.
- Put the baking tray in the oven.
- Remove the tray from the oven.
- Ice and decorate the cupcakes.

Item 2
Kids in the Know
Your city council has created a "Kids in the Know" program. Kids from the area will create maps and videos for new families to use.

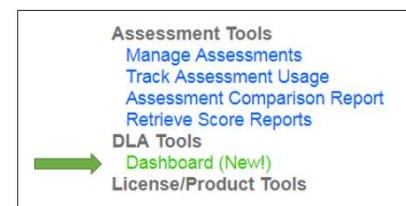

- Important note about student scores:** if a student gets a question partially incorrect, that student will not receive any points for the question. For example, if a question has more than one correct multiple-choice option, but the student only picks one of the correct options, the question will be scored as incorrect.

Coordinator Dashboard and Reports:

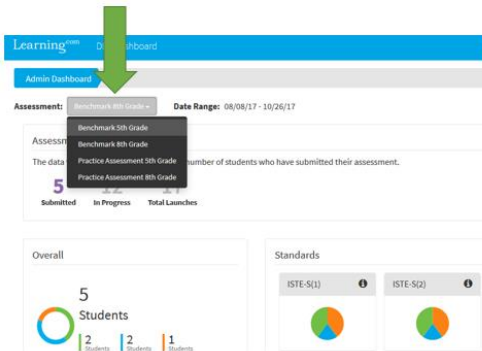

Coordinators can view District-level and School-level analyses of performance.

Launching the Coordinator Dashboard

- From the Coordinator homepage, click on 'Dashboard (New!)' under 'DLA Tools' in the left-hand menu.

- If you have multiple assessments available, you can toggle between them to view the data for each.

- If your students have not yet launched the DLA, you will see a “Come Back Soon” message.

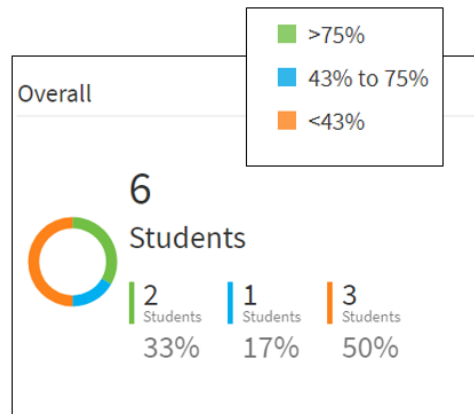

Come Back Soon...

You can analyze data for your district once students start submitting their assessments.

‘Overall’ Data

- This shows you at a glance the number and percentage of students at that achievement level.

‘Standards’ Data

- Under the ‘Standards,’ you will see 6 or 7 pie charts (the Practice Assessments only address 6 standards).

- Click on the 'i' information icon to view an explanation of the standard being measured, which will open in a separate modal window.

ISTE-S(2) Digital Citizen

Students recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world, and they act and model in ways that are safe, legal and ethical.

2a: Students cultivate and manage their digital identity and reputation and are aware of the permanence of their actions in the digital world.

2b: Students engage in positive, safe, legal and ethical behavior when using technology, including social interactions online or when using networked devices.

2c: Students demonstrate an understanding of and respect for the rights and obligations of using and sharing intellectual property.

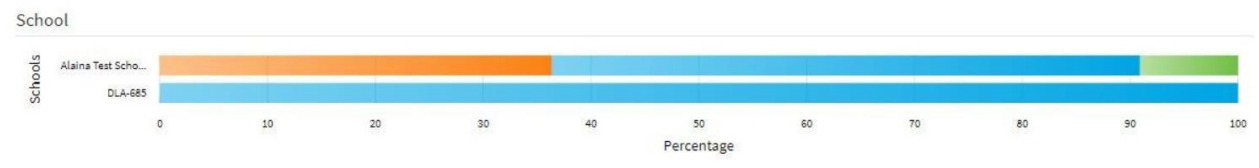

2d: Students manage their personal data to maintain digital privacy and security and are aware of data-collection technology used to track their navigation online.

[Close](#)

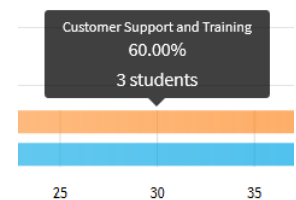

- Hovering over each slice in a pie chart will display the number of students who fall into the score range.

Comparing Schools

- By scrolling down in the main dashboard window, you can view a school comparison chart

- Hovering over a specific section of the chart will display school name, number of students who scored in that range, and percentage of students who scored in that range.

Launching the Coordinator Reports

- Once you've launched the Dashboard as a Coordinator, you also have access to reports. In the top blue bar of your Dashboard click 'Reports' in the top right.

- In Report view, you will be able to export raw data reports for any assessment that has at least one submission.

- If you've selected an assessment on the Dashboard and toggled to the Reports tab, the same assessment will be selected.

You can find more information about the DLA on our [Resources and Support](#) page or by reaching out to Learning.com's [Customer Support](#) team.
