

Support from their employer

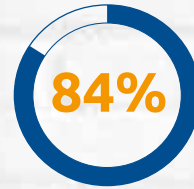

had either no employer support or felt that the level they received was below their expectations

were not familiar with the cancer resources available from their employer

had managers who were only somewhat knowledgeable or had no knowledge about their condition

agreed that they were more or less loyal to their employer based on the support they received

agreed that they may have been able to return to work sooner if they had received better support

that had a supportive employer agreed that they are more productive at work

Attitudes towards their employer

Workplace challenges and support

Taking time off for appointments

Offering reduced / flexible hours

Feeling tired at work

working from home

Distracted at work

providing counselling or emotional support

Cancer in the workplace

Unum's survey of **300 employees** diagnosed with cancer in the workplace

The increasing cost of cancer

3 out of **4**

were worried about how their family would cope with loss of income if they had to give up work

What did employees say were the major costs?

1 TRAVEL to and from appointments

2 NOT ABLE TO WORK (either themselves or their partner)

3 HIGHER BILLS from spending more time at home or being sensitive to temperatures
