

# Software Release Notes

---

**Part Number:** SW90142  
**Description:** SCC – SCR Configuration and Control Tool  
**Release Number:** 1.10  
**Release Date:** 03/10/2015

## **New Features:**

- The directory of the ozCfg file that was last opened is remembered and is the starting directory when opening a new ozCfg file

## **Bug Fixes:**

- Fixed a crash when disconnecting while reading a board's configuration values
- Fixed an issue where the "Sort Options" box on the configuration window would not be shown on some monitors until the window was resized

## **Compatibility Notes:**

- When using this version of the SCC tool, the target SCR control board must contain an embedded bootloader SW90139 Rev 1.3 or newer
- When using this version of the SCC tool, the target SCR control board must contain firmware SW90126 Rev 1.8 or newer
