

Software Release Notes

Part Number: SW90142
Description: SCC – SCR Configuration and Control Tool
Release Number: 1.8
Release Date: 12/03/2013

New Features:

- Updated the Modbus driver to read directly from the serial port instead of going through a separate serial driver library. This fixes an issue where the serial port buffer was not read completely when receiving data
- The Flash Programmer Utility now writes directly to the serial port instead of going through the serial driver library. This makes downloading files to the board more reliable

Bug Fixes:

- N/A

Compatibility Notes:

- When using this version of the SCC tool, the target SCR control board must contain an embedded bootloader SW90139 Rev 1.3 or newer
- When using this version of the SCC tool, the target SCR control board must contain firmware SW90126 Rev 1.8 or newer
