

Best Preschool Bilingual Curriculum With Masterclass Enrichment

mastering preschool

A unique Bilingual Curriculum with Masterclasses will set your child up for success at **Lorna Whiston**.

A solid foundation in preschool is important to set a child up for success in primary school. With this aim in mind, the curriculum at Lorna Whiston is planned to help early learners develop key skills that will serve them well for their future endeavours.

With over 39 years of high quality education and teaching excellence, you can be assured that your child is in good hands at Lorna Whiston. A team of dedicated and passionate teachers are committed to providing individual students with the attention they need, while always reflecting on how they can help your child reach their highest potential.

To ensure complete immersion in both English and Mandarin, an English language teacher and a Chinese language teacher are present in each classroom. A range of discussions, songs, rhymes, vocabulary-building activities, and interactive learning situations are used to build strong verbal skills. Subjects are covered in an integrated manner by focusing on a special topic that helps children draw connections between what they've learned and the world around them.

Another key to the success of the Lorna Whiston curriculum is the unique Individualised Reading Programme. Developed carefully over the past 25 years, the programme empowers students with reading strategies that they will need to achieve success in all subject areas in primary school. The programme identifies and monitors each child's reading progress, and teachers provide the support needed to ensure every child progresses at the right pace and develops a lifelong love of reading.

Preschool students in the full day K1 and K2 classes also enjoy access to an exciting variety of Mini Master Classes at Lorna Whiston. These enriching programmes expose children to new learning experiences in the areas of Art & Craft, Speech and Drama, Reading & Phonics, Music and Movement, as well as Design and Cooking. The younger children can also benefit from these enriching programmes. A special Little Learners programme is offered for full day N2 children. This programme allows the children to explore, discover and create whilst building confidence and creativity in growing minds.
