

FASTER STUDY BUILD & CDISC CONVERSIONS, LESS LABOR

WITH OUR CLINICAL TRIAL AUTOMATION SOFTWARE

We've automated those time-consuming, expensive manual tasks. From study set up to submission. Now you can design studies and convert data FASTER than before - with less resource.

- Design & build studies in different EDCs from 1 platform
- Start EDC studies much faster than before
- Preview CRFs & EDC builds before trials start
- 1 click SDTM dataset conversions
- Take on more work - with the same resource

See how we could help you do more with less resource.

BOOST PROFITS

MANAGE STANDARDS MORE EFFICIENTLY & IMPROVE QUALITY

WITH OUR MDR & STANDARDS MANAGEMENT PLATFORM

The Formedix automation platform includes a fully integrated metadata repository to help you:

- Manage standards more efficiently in a central library
- Import standards & studies from Rave & InForm
- Cut study build time & costs by reusing content
- Comply with latest & previous CDISC standards
- Increase data quality & consistency by reusing standardized content
- It's off-the-shelf, start right now - no long & complex implementation
