“EHL prepares you for real life like no other educational institution. It has made me ready for success, but also prepared to get rejected 100 times and still stand up to walk again. EHL nurtures us to dream big, telling us that we are the future leaders of the industry, and it has a huge psychological impact.

I’ve had such incredibly unique experiences, not just through the preparatory year (AP) and internships, but by networking and socializing. “Work hard, play hard” was our motto and it’s very true, EHL taught me the crucial balance of studying and building meaningful human interactions. We focus a lot on benevolence, authenticity, family, and respect because being able to embody these qualities is a skill set for life. EHL is a place to truly grow as a person, not just study and leave. I know I wouldn’t have gotten this experience if I had studied anywhere else.”
