# Streamlining Meets Security & Strength

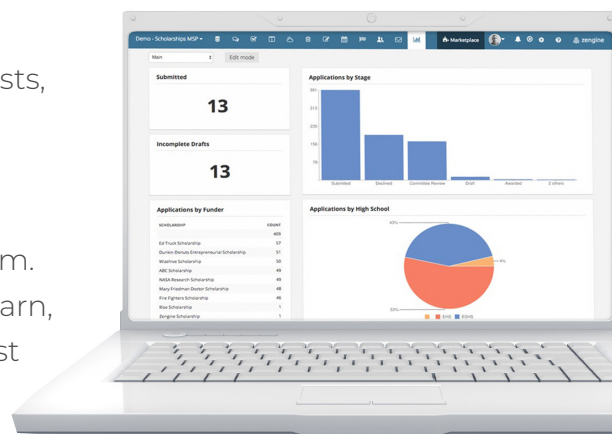

Meet Zengine, the second-generation application management platform from WizeHive

**You came to WizeHive on a mission to end the mile-long email chains, countless file folders, and bloated spreadsheets that were taking over your program.**

**And now you can do even more with Zengine™ -- a platform that builds on the time saving and streamlining features of Select™ but adds in powerful, valuable new functionality to allow your team to do even more.**

Designed with the needs of nonprofits, universities, associations, and government departments, in mind, this new cloud-based platform even further improves the the collection, review, and management of applications for grants, scholarships, fellowships, and countless other programs. Hundreds have switched to or sign-up for Zengine, including the Bill & Melinda Gates Foundation, Institute of Food Technologists, Coca-Cola Scholars Foundation, and University of Pennsylvania.

Combine all the programs you manage into one platform. Get a real hold on your data and reporting so you can learn, improve, and see more impact from your programs. Rest easy with advanced security and privacy features.

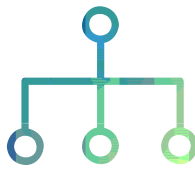

## Valuable Features

Enjoy everything you loved about Select plus these key feature enhancements:

CLEARER AND MORE EFFICIENT  
APPLICATION EXPERIENCE

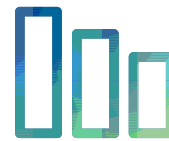

MORE FLEXIBLE PROCESS, DATA  
FLOW, AND WORKSPACE  
CONFIGURATION

COMPREHENSIVE TRAINING  
AND SUPPORT ASSISTANCE

1000+ INTEGRATION  
AND CUSTOMIZATION OPTIONS

BEST IN CLASS SECURITY AND  
PRIVACY STANDARDS

## Bigger, Better Benefits

- Tailor your **online workflow** to your program's process and needs, not the other way around
- Easily **manage multiple application processes**, from grants to scholarships to fellowships, in one system
- Create **unlimited forms** with any type of fields to collect and manage the data important to you
- **Make edits or even build out new forms easily** and on your own without the help of IT
- **Import legacy or offline data** for a more comprehensive applicant and program view
- Offer **single sign on (SSO)** capability for convenience and automatic data population
- Harness the power of the relational database to generate **custom dashboards and reporting** screens
- Help applicants and reviewers with **more user-friendly portals** featuring profiles, stages, deadlines, and more
- Know what's going on with real-time **audit trails and analytics**
- Enjoy **continual updates and new feature releases** as our development team continues to grow and improve the platform
