Promote and Host 1-to-Many Webinar Style Events Right Inside PeopleGrove

With the new Zoom Webinar integration accessible from within GroveConnect, partners now have the ability to create, promote, and run webinars seamlessly inside PeopleGrove communities.

The Perfect PeopleGrove Complement

- Screencasting. Chat. Q&A. Polling. Zoom leaves little to be longed for.
- Adding these to the registration, attendance, and payment tools provided by PeopleGrove Events, and you've got the perfect one-two virtual events power punch.

Better Together

- Create your virtual events in the site where your people already are.
- Use PeopleGrove's built-in email marketing tools to get the word out.
- Integrated attendance tracking automatically brings Zoom data back into PeopleGrove for centralized reporting and follow-up.

Sold Separately, Delivered Jointly

- Enable Zoom inside GroveConnect: Apps and Integrations Marketplace.
- There is no charge for the Zoom Webinar integration.
- Requires partners to have a Zoom Webinar account.

Integration requires PeopleGrove's Events module add-on. Contact your PeopleGrove Account Manager to enable this module.
