

# ComplySci Reduces Time Spent on Assessments with Proactive Sharing

How CyberGRX Helped Them Spend More Time on Strategic Initiatives

## The CyberGRX Effect

By proactively sharing their CyberGRX assessment, ComplySci has cut down the time they spend filling out assessments, enabling them to instead focus on proactively managing their security and safeguarding customer's data.

### Before

**100X**

Assessed over 100 times a year via manual, static spreadsheets

Overwhelmed with time required to manually complete each assessment spreadsheet

Needed more time to focus on proactively managing their clients' security

### After

Breezed through CyberGRX's comprehensive assessment once

One click of a button shares their dynamic assessment - reducing their time spent on assessments by 45%

Save over 400 hours with CyberGRX, allowing them to instead focus on their clients

*"The CyberGRX assessment process was comprehensive, yet seamless. The standardized assessment, and their global risk information Exchange, will help us save 400 hours or more traditionally spent on filling in assessments, so we can apply that time on proactively managing our security for our clients"*

-George McKeivitt  
PhD, ComplySci CTO
