

Amifruit Juices & Nectars

Product of France

Amifruit juices and nectars are produced by an artisanal enterprise specializing in the production of fruit nectars and vegetable juices. It is located in the charming village of Saint-Romain-en-Jarez near the Monts du Lyonnais hills in the region Auvergne-Rhône-Alpes.

The fruits are meticulously sourced, which fully express the terroir characteristics of different regions of France. Tropical fruit, citrus, come from cooperative partners from Africa and Europe.

By way of advanced technology, the juice is carefully obtained using centrifuge, preserving the natural quality of the fruit, their unique taste and aroma. Each batch of beverage passes independent full operational control, which guarantees their safety and compliance with European standards.

Excellence, authenticity and craftsmanship are evident when Amifruit juices and nectars are consumed alone or within a cocktail!
