Kiosk Solutions

Kiosk Solutions

Our kiosk solutions help patients to have the best experience possible within your facility. Surveys indicate that patients are more likely to choose a healthcare provider who allows them to manage their health and medical care using convenient healthcare portals. Our easy-to-use, self-service kiosks are compatible with Epic and a perfect fit for healthcare facilities. Healthcare uses include registration, check-in, and billing; wayfinding, virtual concierge, internal HR applications, and many more

A-Series Kiosks

The A-Series kiosks are ideal for use in a variety of medical applications. They help eliminate long waits and makes ordering, updating information, and payment processes smoother, faster, and more secure, all of which contribute to a more positive customer experience. Table-top kiosks are less expensive than full-size models and much easier to move from one location to another, as needs dictate. Automation is transforming the way we do business. Let Howard show you how.

- Durable, powder-coated steel enclosure
- Barcode scanner
- Encrypted EMV credit card reader
- Thermal receipt printer
- Camera

W-Series Kiosks

The W-Series kiosks are built for indoor use. These kiosks are self-service payment processing units that include a 24" touchscreen monitor. W-Series kiosks are equipped with high-quality components to ensure full security and optimal functionality. This standalone multimedia platform includes a built-in PC with a user-friendly interface that allows the system to guide customers easily through automated processes. These kiosks are solidly constructed to withstand round-the-clock usage, maximize uptime, and ensure the high level of performance you depend on. Howard support technicians are available 24/7.

- Durable, powder-coated steel enclosure
- 24" Touch display monitor
- Card reader
- Receipt printer
- Barcode reader
- Integrated 170 degree security camera
- Keyboard with trackball (internally stored)
- Core i5 howard computing device

Customized Kiosks

Howard can customize any one of our kiosk models to promote your facility's image, with your logo, your colors, and other brand standards. Customized kiosks reinforce your identity and help establish a fresh, modern appearance for your facility. Increase recognition and help build brand loyalty with customized kiosk solutions from Howard.

These are the standard colors available to choose from. If you have a custom color and finish in mind, just let us know; we can match it.

D-Series Kiosks

The Howard D-Series model kiosks incorporate a user-friendly platform to help customers and visitors find their way. Visiting a hospital can be a stressful experience for patients, family members, and even, new employees. Wayfinding tools can be a key factor to improving these experiences. In addition to enhancing the visitor's overall experience, self-service kiosks can relieve reception staff of wayfinding duties in favor of other tasks and increase workplace efficiency in the process. Wayfinding kiosks can also be configured to promote additional services, specials, and websites.

- Portrait digital signage layout
- Wi-Fi hotspot
- Camera
- Messaging
- Branding options (logo, colors, etc.)
- Date/time
